

ANNUAL REPORT  
of the  
TOWN OFFICERS  
of the  
Town of Plymouth

For the Year Ending December 31,  
1944

R

374.98

PRINTING AND BINDING BY  
THE MEMORIAL PRESS  
PLYMOUTH, MASS.

## TOWN OFFICERS, 1944

---

Selectmen: James A. White, John A. Armstrong, William H. Beever, Howard M. Douglas and James T. Frazier.

Clerk of Selectmen: Norman W. Gray.

Town Clerk: Herbert K. Bartlett.

Town Treasurer: Herbert K. Bartlett.

Collector of Taxes: Harold W. Baker.

Town Accountant: Elmer R. Harlow. Mr. Harlow retired December 3, 1944. Mrs. Cora B. Grady appointed December 4, 1944.

Assessors: James S. Swanton, chosen 1942 for three years; Thomas L. Cassidy, chosen 1943 for three years; George E. Blackmer, chosen 1944 for three years.

Overseers of Public Welfare: A. Rodman Hussey, Jr., chosen 1942 for three years; Edmund J. Priestley, chosen 1943 for three years; Gordon S. McCosh, chosen 1944 for three years.

Water Commissioners: John H. Damon and John L. Morton, chosen 1942 for three years; Edward R. Belcher chosen 1943 for three years; Daniel F. Mulcahy, chosen 1943 for one year; Richard T. Eldridge and Daniel F. Mulcahy, chosen 1944 for three years; C. Brooks Hudson, chosen 1944 for one year.

School Committee: E. Harold Donovan and Fannie T. Rowell, chosen 1942 for three years; David A. Cappanari and William E. Curtin, chosen 1943 for three years; J. Frankland Miller and Francis E. LeBaron, chosen 1944 for three years.

Cemetery Commissioners: Arthur E. Blackmer, chosen 1942 for three years; Richard T. Eldridge, chosen 1943 for

three years; Edward R. Belcher, chosen 1944 for three years.

Burial Hill Committee: Cemetery Commissioners.

Agawam & Halfway Pond Herring Fishery Committee: Emil C. Birnstein, Elmer P. Boutin and Fred E. Morton.

Park Commissioners: Arthur Sirrico, chosen 1942 for three years; Edward J. E. Hand, chosen 1943 for three years; John A. Siever, chosen 1944 for three years.

Board of Health: Paul W. Bittinger, chosen 1942 for three years; Medora V. Eastwood, chosen 1943 for three years; Herbert S. Maxwell, chosen 1944 for three years.

Planning Board: Arthur E. Blackmer, George L. Gooding, Francis C. Holmes, Allen D. Russell, and Amedeo V. Sgarzi.

Field Drivers and Fence Viewers: William LaRocque and Chester Torrance.

Surveyor of Wood and Bark: Harold E. Giles.

Committee on Inland Fisheries: Frank L. Bailey, George L. Gooding and Howard M. Morton.

Committee on Town Forest: Abbott A. Raymond, Frank Thomas and Arthur W. Weston.

Board of Registration: Joseph R. Stefani, appointed 1942 for three years; Walter R. Roberts, appointed 1943 for three years; Enrico Ferrari, appointed 1944 for three years.

Committee on Sewers: Selectmen.

Sexton: James M. Martin.

Pound Keeper: Russell L. Dickson.

Sealer of Weights and Measures: Harold E. Giles.

Superintendent of Streets: Elmer C. Chandler.

Superintendent of Water Works: Theodore Brink.

Beach Committee: Selectmen.

Collector of Water Rates: Addie H. Burgess.

Harbor Master Elmer P. Boutin.

Members of Retirement Board: Russell P. Dearborn,  
Herbert K. Bartlett, and Elmer R. Harlow.

Superintendent of Oak Grove and Vine Hills Ceme-  
teries and Burial Hill: Alexander H. P. Besse.

Superintendent of Chiltonville Cemetery: Charles B.  
Howland.

Superintendent of Manomet Cemetery: Gordon S.  
McCosh.

Superintendent of Infirmary: Russell L. Dickson.

Fire Commissioner: Henry Walton.

Town Engineer: Edward Chase.

Chief of Police: Russell P. Dearborn.

Tree Warden: Abbott A. Raymond.

Forest Warden: Henry Walton.

Local Moth Superintendent: Abbott A. Raymond.

Town Counsel: Alfred P. Richards.

Building Inspector: Thomas A. Bodell.

Dog Officer: John O. Cadman.

Inspector of Animals: Frederick Bradley.

Inspector of Slaughtering: Hillery J. Bergman.

## ANNUAL TOWN MEETING,

MARCH 25, 1944

---

AMEDEO V. SGARZI, Moderator

---

### Article Three:

On motion of Herbert K. Bartlett, Voted: That the reports of the several boards of officers and committees of the town be accepted and placed on file.

### Article Four:

On motion of Herbert K. Bartlett, Voted: That the Town authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1945, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

### Article Five:

Mr. Hugh L. Garrity moved: That the salary of the Chairman of Selectmen be set at seven hundred and twenty-six (726) dollars.

That the salary of the other Selectmen be set at three hundred and sixty-three (363) dollars each.

That the salary of the Chairman of Assessors be set at twenty-three hundred seventy-one and 60/100 (2,371.60) dollars.

That the salary of the other Assessors be set at nineteen hundred and thirty-six (1,936) dollars each.

That the salary of the Town Clerk be set at nineteen hundred and eighty (1,980) dollars.

That the salary of the Town Treasurer be set at nineteen hundred and eighty (1,980) dollars.

That the salary of the Collector of Taxes be set at twenty-nine hundred and seventy (2,970) dollars.

That the salary of the Secretary of the Board of Public Welfare be set at four hundred and twenty-three and 50/100 (423.50) dollars.

That the salary of the Chairman of the Board of Public Welfare be set at fifty (50) dollars.

Mr. Garrity's motion was put before the meeting and carried.

#### Article Six:

Mr. Hugh L. Garrity moved: That the Town appropriate the sum of \$954,059.25 to defray the expenses of the Town and for other purposes, of which sum \$421,665.14 shall be for salaries and personal services, and \$532,394.11 for other purposes including all labor payrolls, all as printed in the recommendations of the Advisory and Finance Committee, except that the appropriation for Snow and Ice Removal is reduced to \$8,000.00 and the Contributory Retirement System Pension Fund increased to \$21,729.64.

Mr. Garrity's motion was then put before the meeting and carried.

#### Article Seven:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$9,800.00, including the dog tax of \$1,600.07, in aid of the Plymouth Public Library.

#### Article Eight:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$3,560.00 to be expended by the Plymouth Public Library for the Loring Library.

Article Nine:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$1,000.00 in aid of the Manomet Public Library.

Article Ten:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$400.00 for the observance of Memorial Day, to be expended under the direction of the Board of Selectmen.

Article Eleven:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$100.00 for the observance of July Fourth, to be expended under the direction of the Board of Selectmen.

Article Twelve:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$500.00 for the purpose of maintaining, during the ensuing year, the Mosquito Control Works constructed in the Town of Plymouth, as estimated and certified to by the State Reclamation Board.

Article Thirteen:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$2,500.00 for the employment of one or more District Nurses. Said appropriation to be expended under the direction of the Board of Selectmen.

Article Fourteen:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$150.00 for the use of the Plymouth County Trustees for County Aid to Agriculture, and choose a Town Director.

On motion of Herbert K. Bartlett, Voted: That James S. A. Valler be chosen Town Director for County Aid to Agriculture.

Article Fifteen:

On motion of Hugh L. Garrity, Voted: That the Town

authorize the Selectmen to sell, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the town fourteen days at least before the sale, property taken by the Town under tax title procedure, provided that the Selectmen or whomsoever they may authorize to hold such public auction may reject any bid which they deem inadequate.

Article Sixteen:

On motion of Hugh L. Garrity, Voted: That the Town authorize the Selectmen to control, regulate or prohibit the taking of eels and any or all kinds of shellfish and sea worms within the borders of the Town of Plymouth and such other authority as is provided in Section 52 of Chapter 130 of the General Laws, as inserted therein by Chapter 598 of the Acts of 1941.

Article Seventeen:

On motion of Hugh L. Garrity, Voted: That the Town authorize the Selectmen to issue licenses for private shellfish grants in accord with the provisions of Section 57 of Chapter 130 of the General Laws, as inserted therein by Chapter 598 of the Acts of 1941.

Article Eighteen:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$500.00 for the use of the Plymouth Committee on Public Safety, said appropriation to be expended under the direction of the Board of Selectmen.

Article Nineteen:

To see if the Town will vote to raise and appropriate the sum of forty-five hundred (4,500) dollars, to be used for the purchase of a new Bucket Loader and snow removal attachment for the Highway Department.

On motion of Hugh L. Garrity, Voted: That the Town take no action under Article 19.

Article Twenty:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$6,000.00 for improvement of two miles of Long Pond Road.

Article Twenty-one:

Mr. Hugh L. Garrity moved: That the Town authorize the School Committee to acquire by purchase from Mrs. Esta Pederzani the land described in Article 21 with the buildings thereon and appropriate the sum of \$3,000.00 therefor, and authorize the School Committee to dispose of said buildings as it may see fit. Three Hundred Thirty voting in the affirmative and One in the negative, the necessary two-thirds having voted in the affirmative, the motion was carried.

Article Twenty-two:

On motion of Hugh L. Garrity, Voted: That no appropriation be made and no Recreational Commission be elected. That a committee of seven be appointed by the Moderator to study the matter, at no expense to the Town, and report at the next town meeting.

Article Twenty-three:

On motion of Hugh L. Garrity, Voted: That the Town vote to pay Adrian P. Whiting and others for the timber which was standing on the lot of land at Little South Pond conveyed by them to the Town, and appropriate therefor the sum of \$255.39, including the \$155.39 which has been received by the Town for timber already cut, and to permit the removal by them of the timber already cut.

Article Twenty-four:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$300.00 for the observance of

Armistice Day, said appropriation to be expended under the direction of the Board of Selectmen.

Article Twenty-five:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$2,800.00 to be used to purchase a complete radio system for the Police Department to replace the present system.

Article Twenty-six:

On motion of Hugh L. Garrity, Voted: That the Assessors, in making the tax rate for the current year, are authorized to use, for reducing the rate, \$40,000.00 from money in the town treasury not otherwise appropriated.

Article Twenty-seven:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$40,000.00 from money in the town treasury not otherwise appropriated, to be invested in United State War Bonds under the provisions of Chapter 5 of the Acts of 1943; said sum to include \$1,000.00 received as interest on U. S. bonds already owned by the Town.

Article Twenty-eight:

On motion of Hugh L. Garrity, Voted: That the Town appropriate from money in the town treasury not otherwise appropriated the sum of \$5,000.00 to the Reserve Account in the hands of the Advisory and Finance Committee and authorize the transfer of the sum of \$10,000.00 from the Reserve from Overlayings of Taxes to the said Reserve Account.

Article Twenty-nine:

On motion of Hugh L. Garrity, Voted: That the Town vote to adopt the following by-law: There shall be an

annual audit of the Town's accounts under the supervision of the Director of Accounts of the Department of Corporations and Taxation in accordance with the provisions of Section 35, Chapter 44, General Laws.

Article Thirty:

On motion of Hugh L. Garrity, Voted: That the Town vote to accept twenty-three (23) cemetery perpetual care funds, amounting to four thousand and five hundred and twenty-five dollars (\$4,525.00) received and deposited in the Plymouth Savings Bank in the year 1943, in accordance with the usual votes of the Cemetery Commissioners and Selectmen, and listed as new funds in the town report for that year.

Article Thirty-one:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$900.00 to be used for the purchase of a new car for the Chief of the Fire Department, to replace the one now in use.

Article Thirty-two:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$2,000.00 to be expended by the Park Commissioners for further development of the playground now under construction on the land given to the Town on Standish Avenue by the Plymouth Cordage Company.

Article Thirty-three:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$450.00 to be expended by the Park Commissioners to continue classes in swimming and life saving, which first were put into operation last year.

Article thirty-four:

Mr. Hugh L. Garrity moved: That the Town take no action under Article 34.

Mr. Walter Haskell moved to amend by substituting the following motion: That the Town appropriate the sum of five hundred dollars (\$500.00) said money to be expended by the Park Commissioners to purchase playground equipment, and the motion was carried.

Mr. Garrity's motion, as amended by Mr. Haskell, was then put before the meeting and carried.

Article Thirty-five:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$200.00 to be expended by the Park Commissioners for work to be done on shade trees coming under the jurisdiction of the Park Department.

Article Thirty-six:

On motion of Hugh L. Garrity, Voted: That the Town authorize the Board of Health to appoint a member of said Board Physician to the Board, and hereby fixes the salary of the appointee at \$600.00 per annum.

Article Thirty-seven :

On motion of Hugh L. Garrity, Voted: That the Town approve the collection of garbage in Manomet, authorize the Board of Health to provide for such collection, and that the sum of \$6,000.00 be appropriated for this purpose.

Article Thirty-eight:

On motion of Hugh L. Garrity, Voted: That the Town vote that the sum of \$9,000.00 be appropriated from money in the town treasury not otherwise appropriated to meet the Town's, State's and County's shares of the

cost of Chapter 90 Highway Maintenance; all reimbursements from the State and County for this work to be restored, upon the receipt, to the Excess and Deficiency Account.

Article Thirty-nine:

To see if the Town will accept section Forty-two A and sections Forty-two B. to Forty-two F., inclusive, of Chapter 40 of the General Laws, as amended, which provide that if the rates and water charges due to a town for supplying or providing for water or rendering service or furnishing materials in connection therewith to or for any real estate at the request of the owner or tenant are not paid within sixty days after their due date as established by local regulations or by-laws, such rates and charges, together with interest thereon and costs relative thereto, shall be a lien on such real estate in the manner therein provided.

Mr. Hugh L. Garrity moved: That the Town take no action under Article 39.

Mr. Edward R. Belcher moved: That the Town accept section Forty-two A and sections Forty-two B. to Forty-two F., inclusive, of Chapter 40 of the General Laws, as amended, and the motion was carried.

Mr. Garrity's motion, as amended by Mr. Belcher, was then put before the meeting and carried.

Article Forty:

To see if the Town will vote to reserve surplus Water Department revenue for the Water Department, determine how any deficit in the Water revenue shall be provided for; or do any other thing in relation thereto.

On motion of Hugh L. Garrity, Voted: That the Town take no action on the subject matter presented in Article 40. That a committee consisting of five or more be appointed by the Moderator to study this question, and

all possible contingencies that might arise from such change of policy in handling of Water Department income, and report at the next annual town meeting.

Article Forty-one:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$2,500.00 for the purpose of carrying along the Assessors' Plans from the southerly end of Clifford Road, south along both sides of Warren Avenue. Said appropriation to be expended under the direction of the Assessors.

Article Forty-two:

On motion of Hugh L. Garrity, Voted: That the Town appropriate the sum of \$1,500.00 for the Plymouth War Price and Rationing Board No. 249, said appropriation to be expended under the direction of the Board of Selectmen.

Article Forty-three:

To see if the Town will authorize the Selectmen to acquire by purchase from Miss Laura Brewster a parcel of shore property lying easterly of Water Street, opposite Brewster Street, for the sum of five hundred (500) dollars. (By Petition of Jules H. Toupin et als.)

On motion of Hugh L. Garrity, Voted: That the Town take no action under Article 43.

**REPORT OF ADVISORY AND FINANCE  
COMMITTEE ON THE  
ARTICLES IN THE TOWN WARRANT**

---

**MARCH 25, 1944**

---

Your Committee presents its report and recommendations on the articles in the warrant for the annual town meeting.

The total of appropriations, from the tax levy and other revenue, has, for several years approached one million dollars and on at least one previous warrant the amounts requested by the departments and others were in excess of that sum.

This year, for the first time, the amount recommended by the committee is just over this mark. Two items recommended provisionally will, however, if dropped, reduce it below one million by a few thousand dollars.

In a year when no new activities or special outlays for construction or improvements were expected, this may well call for some explanation. To make this clear, we have taken each of the three appropriation totals, separately.

**1st. Salaries and Personal Services, in Article 6,     \$421,954.**

The town voted, in 1943, to increase salaries by 10%, appropriating for salaries \$410,860., which provided for such increases from April 1st, three quarters of the year. In this and subsequent years approximately 2½% more salary appropriation is, of course, required. This, with adjustment of the established step-rate increases in the several departments, is all that is included in our recommendations.

**2nd. Other Expenses, Including Labor Payrolls,**  
in Article 6, ..... \$535,337.

This is the most complex as well as the largest of the three component sums. It is also the hardest to estimate and control. Labor payrolls are a considerable item in it

and the increase voted last year adds its quota to this amount, as in the salaries section as set forth above. Labor shortage and curtailment of certain maintenance work, on the other hand, has had the opposite effect. A great many expenditures for fixed charges are included in these department budgets. Heating is a big item in some departments and its cost is not much subject to control by the town under present war conditions. Last year, two items that ordinarily appear in the Highway Department budget were omitted; one because there was an available balance held over from the previous year; the other because necessary materials were unobtainable. These two items are now again included in this 1944 list.

Welfare and other relief aid shows no increase, except in Old Age Assistance. Only a few departments are asking for more money in their general maintenance appropriations and these have been quite thoroughly gone into by your committee through its organization into Sub-Committees on the major town departments.

The fact that a large amount of last year's appropriations was returned to the town treasury because materials and equipment were not to be had, would, at first thought, seem to be reason for withholding corresponding sums from this year's appropriations, but we have considered that if the heads of departments, being in touch with their usual sources of supply, have reason to think that their needs will be supplied, the necessary funds should be provided. If it remains unexpended, it will be again returned.

**3rd. Special Appropriation Articles, ..... \$48,160.**

Examination of the printed list will show that, outside of routine annual appropriations, these are mostly for departmental needs. There are no new projects inserted on petition, except Article 37, for collection of garbage in the Manomet district. This has the approval of the Board of Health. The amount asked for this purpose is only a rough estimate, as we understand that no definite plan has been decided upon.

**Article 27.** U. S. Bond Investment, provides for double the amount appropriated and invested in 1943. In order that all of the voters may know the provisions of the law under which these investments are made, those sections of Chapter 5 of the Acts of 1943 that apply are printed at the end of this report.

The uses of the proceeds from the sale of these bonds, after the termination of the war and without the special approval of the State Committee, "For purposes for which the town may borrow money for a period of not less than ten years," includes everything for which we have ever issued, or proposed to issue, bonds, excepting the laying of water pipes of **less than six inches** in diameter, and the purchase of departmental equipment.

**Article 5.** To see what action the Town will take with regard to fixing the salaries of elected town officers.

Recommended that the salaries of elected town officers remain fixed as they now are, viz:

Chairman of Selectmen .....	\$ 726.00
Other Selectmen (each .....	363.00
Chairman of Assessors .....	2,371.60
Other Assessors (each) .....	1,936.00
Town Clerk .....	1,980.00
Town Treasurer .....	1,980.00
Collector of Taxes .....	2,970.00
Secretary of Board of Public Welfare .....	423.50
Chairman of Board of Public Welfare .....	50.00

**Article 6.** To make the necessary appropriations to defray the expenses of the Town, and for other purposes, and to raise such sums of money as the Town shall deem expedient.

Article 7. To take such action as the Town shall see fit in aid of the Plymouth Public Library.

Recommended appropriation of \$9,800.00, including the Dog Tax of \$1,600.07.

Article 8. To see if the Town will appropriate the sum of three thousand five hundred and sixty (3,560) dollars, to be expended by the Plymouth Public Library for the Loring Library.

Recommended appropriation of \$3,560.00.

Article 9. To see if the Town will appropriate a sum not exceeding one thousand (1,000) dollars in aid of the Manomet Public Library.

Recommended appropriation of \$1,000.00.

Article 10. To see if the Town will appropriate a sum not exceeding four hundred (400) dollars for the Observance of Memorial Day, said appropriation to be expended under the direction of the Board of Selectmen.

Recommended appropriation of \$400.00.

Article 11. To see if the Town will appropriate the sum of one hundred (100) dollars for the Observance of July Fourth, said appropriation to be expended under the direction of the Board of Selectmen.

Recommended appropriation of \$100.00.

Article 12. To see if the Town will vote to raise and appropriate the sum of five hundred (500) dollars for the purpose of maintaining during the ensuing year the mosquito control works constructed in the Town of Plymouth, as estimated and certified to by the State Reclamation Board, in accordance with the provisions of Chapter 112, Acts of 1931.

Recommended appropriation of \$500.00.

Article 13. To see if the Town will appropriate the sum of two thousand five hundred (2,500) dollars for the employment of one or more district nurses, said appropriation to be expended under the direction of the Board of Selectmen.

Recommended appropriation of \$2,500.00, to be expended as specified in the article.

Article 14. To see what amount the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture and to choose a Town Director, as provided in Section 41 and 45, Revised Chapter 128 of the General Laws, and act thereon.

Recommended appropriation of \$150.00 and that a Town Director be chosen.

Article 15. To see if the Town will vote to authorize the Selectmen to sell, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town fourteen (14) days at least before the sale, property taken by the Town under tax title procedure, provided that the Selectmen or whomsoever they may authorize to hold such public auction may reject any bid which they deem inadequate, or take any action relative thereto.

Recommended that the Town so vote.

Article 16. To see if the Town will authorize the Selectmen to control, regulate or prohibit the taking of eels, and any or all kinds of shellfish and sea worms within the borders of the Town of Plymouth and such other authority as is provided in Section 52 of Chapter 130 of the General Laws, as inserted therein by Chapter 598 of the Acts of 1941, or take any action in relation thereto.

Recommended that the Town vote to so authorize the Board of Selectmen.

Article 17. To see if the Town will authorize the Selectmen to issue licenses for private shellfish grants in accord with the provisions of Section 57 of Chapter 130 of the General Laws, as inserted therein by Chapter 598 of the Acts of 1941, or take any action in relation thereto.

Recommended that the Town so vote to authorize the Board of Selectmen.

Article 18. To see what amount the Town will vote to raise and appropriate for the use of the Plymouth Committee on Public Safety, said appropriation to be expended under the direction of the Board of Selectmen.

Recommended appropriation of \$500.00. This is the amount of the budget presented to the Advisory and Finance Committee by the Committee on Public Safety.

Article 19. To see if the Town will vote to raise and appropriate the sum of forty-five hundred (4,500) dollars, to be used for the purchase of a new Bucket Loader and snow removal attachment for the Highway Department.

Recommended appropriation of \$4,500.00.

Note. This recommendation is made on the condition that written guarantee of delivery is secured by the Highway Department. At the time of the Committee's last meeting this had not been received.

Article 20. To see if the Town will vote to raise and appropriate the sum of six thousand (6,000) dollars for improvement of two miles of Long Pond Road.

Recommended appropriation of \$6,000.00.

The Committee is convinced of the necessity for this work and is informed that there is hope that Federal reimbursement may be obtained for the whole or some part of the outlay.

Article 21. To see if the Town will authorize the School Committee to acquire by purchase from Mrs. Esta Pederzani the land hereinafter described with the buildings thereon, and make an appropriation therefor, and authorize the School Committee to dispose of said buildings as it may see fit. Said land is bounded and described substantially as follows: Northeasterly by Standish Avenue; southeasterly by other land of the Town; northeasterly again by said land of the Town; southeasterly again by land formerly of Isaac L. Hedge; southwesterly by land formerly of said Hedge; and northwesterly by land of the Plymouth Cordage Company.

Recommended appropriation of \$3,000.00.

Article 22. To see if the Town will establish and elect a Recreational Commission to co-ordinate, develop and direct the recreational activities in the Town, and make an appropriation therefor, for the operation of the recreational program under the direction of said Commission. (By petition of Burr F. Jones et al)

Recommended that no appropriation be made and no Recreational Commission be elected. That a committee of seven be appointed by the moderator to study the matter, at no expense to the Town, and report at the next town meeting.

Article 23. To see if the Town will pay Adrian P. Whiting and others for the timber which was standing on the lot of land at Little South Pond conveyed by them to the

Town, and appropriate therefor the sum of two hundred fifty-five and 39/100 (255.39) dollars, and permit the removal by them of the timber already cut.

Recommended appropriation of \$255.39.

Article 24. To see if the Town will appropriate a sum not exceeding three hundred (300) dollars for the Observance of Armistice Day, said appropriation to be spent under the direction of the Board of Selectmen.

(By petition of Guy R. Cole et al)

Recommended appropriation of \$300.00.

Article 25. To see if the Town will appropriate the sum of twenty-eight hundred (2,800) dollars to be used to purchase a complete radio system for the Police Department to replace the present system purchased in 1935.

Recommended appropriation of \$2,800.00.

Article 26. To see if the Town will vote to appropriate from money in the treasury not otherwise appropriated the sum of forty thousand (40,000) dollars to reduce the tax rate of the current year.

Recommended that the Town vote to authorize the Assessors to use this amount to reduce the tax levy of the current year.

Article 27. To see if the Town will vote to appropriate from money in the treasury not otherwise appropriated the sum of forty thousand (40,000) dollars to be invested in U. S. War Bonds.

Recommended that the Town appropriate from money in the town treasury not otherwise appropriated (from the Excess and Deficiency account) the sum of \$40,000.00 to be invested in U. S. War Bonds, under the provisions of Chapter 5 of the Acts of 1943.

Article 28. To see if the Town will appropriate from money in the treasury not otherwise appropriated, the sum of five thousand (5,000) dollars to the Reserve Account in the hands of the Advisory and Finance Committee and will authorize the transfer of the sum of ten thousand (10,000) dollars from the Reserve from Overlayings of Taxes to the said Reserve Account.

Recommended that the Town appropriate and authorize the transfer of a total of \$15,000.00 to the Reserve Account in the hands of the Advisory and Finance Committee, as set forth in Article 28.

Article 29. To see if the Town will pass a by-law to provide for annual audits of the town's accounts under the supervision of the Director of Accounts of the Department of Corporations and Taxation in accordance with the provisions of Section 35, Chapter 44, General Laws, or take any action relative thereto.

Recommended that the Town vote to adopt the following by-law:

"There shall be an annual audit of the town's accounts under the supervision of the Director of Accounts of the Department of Corporations and Taxation in accordance with the provisions of Section 35, Chapter 44, General Laws."

The Town voted, in 1943, authorization to the Selectmen to request such annual audits but it has developed that unless we have a by-law, regularly adopted and filed, there is no assurance that annual audits can be made by the Department, as the auditing force is limited and obliged to work on a schedule.

Article 30. To see if the Town will vote to accept twenty-three (23) cemetery perpetual care funds, amounting to four thousand five hundred and twenty-five dollars (\$4,525) received and deposited in the Plymouth Savings Bank in the year 1943, in accordance with the usual votes of the Cemetery Commissioners and Selectmen, and listed as New Funds in the town report.

Recommended that the Town so vote.

Note: An article for this purpose will be inserted in the warrants for succeeding annual town meetings, as our practice for some thirty-five years wherein the funds are received by the Town Treasurer and deposited in the Savings Banks on orders of the Cemetery Commissioners and Board of Selectmen, is ruled to be incomplete as an acceptance by the town, required by the law.

Article 31. To see if the Town will vote to raise and appropriate the sum of nine hundred (900) dollars, to be used for the purchase of a new car for the Chief of the Fire Department, to replace machine purchased in the year 1935.

Recommended appropriation of \$900.00.

Article 32. To see if the Town will appropriate the sum of two thousand dollars (\$2,000.00) said money to be expended by the Park Commissioners for further development of the playground now under construction on the land given to the Town on Standish Avenue by the Plymouth Cordage Company.

Recommended appropriation of \$2,000.00.

Article 33. To see if the Town will appropriate the sum of four hundred fifty dollars (\$450.00) said money to be expended by the Park Commissioners to continue the classes in swimmnig and life saving, which first were put into operation last year.

Recommended appropriation of \$450.00

Article 34. To see if the Town will appropriate the sum of five hundred dollars (\$500.00) said money to be expended by the Park Commissioners to purchase playground equipment.

Recommended that the Town take no action.

Article 35. To see if the Town will appropriate the sum of two hundred dollars (\$200.00) to be expended by the Park Commissioners for work to be done on shade trees coming under the jurisdiction of the Park Department.

Recommended appropriation of \$200 00.

Article 36. To see if the Town will authorize the Board of Health to appoint a member of said Board physician to the board, the salary of the appointee to be fixed by the Town at \$600 per annum.

Recommended that the Town so authorize the Board of Health, and fix the salary at \$600 00 per annum.

Article 37. To see if the Town will approve the collection of garbage in Manomet and make an appropriation therefor.

Recommended that the Town authorize the Board of Health to provide for the collection of garbage in Manomet and appropriate the sum of \$6,000.00 for that purpose.

Article 38. To see if the Town will vote to raise and appropriate, or transfer from unappropriated available funds in the treasury, a sum of money for Chapter 90 Highway Maintenance, or take any action relative thereto.

Recommended that the sum of \$9,000.00 be appropriated or transferred from available funds (Excess and Deficiency account) to meet the Town's, State's and County's shares of the cost of Chapter 90 Highway Maintenance; reimbursements from the State and County to be restored upon their receipt to the Excess and Deficiency account.

Our custom followed for the last two or three years, of appropriating only for the Town's share of this work, and depending on reimbursements from the State and County to carry on, has resulted in showing the appropriation as overdrawn until the final payments are received in January of the following year.

Article 39. To see if the Town will accept section Forty-two A and sections forty-two B to forty-two F, inclusive, of chapter 40 of the General Laws, as amended, which provide that if the rates and water charges due to a town for supplying or providing for water or rendering service or furnishing materials in connection therewith to or for any real estate at the request of the owner or tenant are not paid within sixty days after their due date as established by local regulations or by-laws, such rates and charges, together with interest thereon and costs relative thereto, shall be a lien on such real estate in the manner therein provided.

Recommended that the Town take no action under Article 39.

Article 40. To see if the Town will vote to reserve surplus Water Department revenue for the Water Department, determine how any deficit in the Water revenue shall be provided for; or do any other thing in relation thereto.

Recommended that the Town take no action on the subject matter presented in Article 40. That a committee consisting of five or more be appointed by the Moderator to study this question, and all possible contingencies that might arise from such change of policy in handling of Water Department income, and report at the next annual town meeting.

Our Water Department has operated successfully for about ninety years. The present simple method of handling it like any other town department, even though rated as a public service enterprise by the State Division of Accounts, is still in use in other Massachusetts towns larger than Plymouth.

If the profits, over a period of years, have grown so that it appears desirable to collect them into a special reserve, it would seem possible that some class of water users is being overcharged.

From the very brief investigation that we could make in the time since this article appeared in the town warrant, we find that in towns where water revenue is segregated from other funds, the other departments are rated as customers of the Water Department and pay from their appropriations for water used.

Article 41. To see if the Town will appropriate the sum of Twenty-five hundred (2,500) dollars for the purpose of carrying along the Assessors' Plans from the southerly end

of Clifford Road, south along both sides of Warren Ave. Money to be expended under the direction of the Assessors.

Recommended appropriation of \$2,500.00.

Article 42. To see if the Town will appropriate the sum of fifteen hundred (1,500) dollars for the Plymouth War Price and Rationing Board No. 249, said appropriation to be expended under the direction of the Board of Selectmen.

Recommended appropriation of \$1,500.00

Article 43. To see if the Town will authorize the Selectmen to acquire by purchase from Miss Laura Brewster a parcel of shore property, lying easterly of Water Street, opposite Brewster street, for the sum of five hundred (500) dollars.

(By petition of Jules H. Toupin et al)

Recommended that the Town take no action under Article 43.

The property is a portion of the shore easterly of the stone wall. There are other parcels in this same strip of shore and it does not seem to be advisable for the Town to acquire them separately and at different times.

Respectfully submitted,

#### ADVISORY AND FINANCE COMMITTEE

#### TOWN OF PLYMOUTH

Hugh L. Garrity, Chairman; Harold W Gould, Armelao Maccaferri, George C. Peterson, Lester W. Thurber, Alfred R. Cross, Robertson C. Damrell, Walder J. Engstrom, Joseph Costa, John Petrell, Jr., Dexter M. Brooks, Kendall S. Estes, Louis G. Giovanetti, James C. Goodwin, Ralph C. Weaver.

Attested: Elmer R. Harlow, Secretary.

The members of the Committee take pleasure in thanking Secretary Elmer R. Harlow for his help during the year. He has been capable, faithful and his exceptionally good judgment and advice was appreciated. He has the best wishes and confidence of each member.

CHAPTER 5, ACTS OF 1943

Section 1. During the continuance of the existing state of war between the United States and any foreign country, any city, town or district may appropriate money for the purchase of defense bonds, war bonds or other bonds issued by the federal government, or other bonds which are legal investments for savings banks; provided, that the aggregate amount of such bonds held at any time under authority of this act shall not exceed five per cent of the assessed valuation of real estate and tangible personal property therein in the year nineteen hundred and forty-two. The aggregate amount purchased and invested under authority of this act and all interest earned thereon shall be set up as a separate fund in the custody of the treasurer of such city, town or district, who is hereby authorized, in case any bond held in the fund matures or is called, to reinvest, with the approval of the mayor, selectmen, prudential committee or commissioners, as the case may be, in other bonds authorized by this act to be purchased. No bonds held under this act may be sold prior to the termination of the existing state of war.

The proceeds from the sale of any such bonds, shall be used only for purposes for which the city, town or district may borrow money for a period of not less than ten years in accordance with sections seven and eight of chapter forty-four of the General Laws; provided, that such proceeds may, in each instance with the approval of the board established under section one of chapter forty-nine of the acts of nineteen hundred and thirty-three, be appropriated and used in whole or in part for other purposes.

Said board in giving its approval shall give especial consideration to necessities then existing in such city, town or district involving rehabilitation following the war or due to unemployment conditions or otherwise. \* \* \* \* \*

Section 6. Chapter four of the acts of nineteen hundred and forty-two, except sections three and six, is hereby repealed, and bonds purchased under section one of said chapter four shall, for the purposes of this act, be deemed to have been purchased hereunder and shall be held subject to the provisions hereof.

Approved February 2, 1943.

# ANNUAL REPORT

of the

## Board of Selectmen

For the Year Ending December 31, 1944

---

In making our report, we find it very difficult to confine ourselves to matters of the town which come directly under our jurisdiction. This is brought about by a misunderstanding by the public as to just what the duties of the Selectmen are. A great many things have happened in the past year, that if properly reported, would make a very lengthy report. However, we will just touch on them and feel sure that you will all be familiar with what we have in mind.

The hurricane which brought great damage to trees, not only on public property, but also on private, cost the town a great deal of money and left a fire hazard which may cost us considerably more if some precautions are not taken. We have had several talks with other officials and department heads to try and prevent any serious fires occurring as a result of all the fallen timber. The cost was serious and yet we feel, the most serious of all, was the loss of the beautiful shade trees which are impossible to replace. A concerted effort must be made, however, to plant more to take the place of those lost. While on the subject of the hurricane, we feel that we would be very ungrateful if we did not mention the splendid work done by the Electric Light and Power Companies and the Telephone Company in restoring their services as promptly as was humanly possible with the scarcity of labor and material.

The sewerage system is a very important part of our

town and we must at all times bear in mind that in the near future a large expenditure will have to be made to bring it up to date. A large proportion of this system is very old and a great many of the pipes will soon have to be replaced. There were several instances this year of manholes overflowing. We are recommending that the town appropriate \$1,000.00 to go with money we already have to complete that part of the intercepting sewer that was started as a W.P.A. project.

Very little has had to be done in the past year by the Defense Committee, and while a portion of the committee is still in operation, very few of us have been called on to give any of our time other than the Auxiliary Police branch who still hold their organization together and are giving splendid assistance to the regular department.

We are happy to report that the Honor Roll is completed and fitting ceremonies were conducted at its dedication. A great deal of work was done by the committee in compiling the names and this part of the work must be kept up to date.

The Board has given considerable time and thought to the rehabilitation of our returning soldiers. At the request of the Governor to appoint a committee for this purpose, we deemed it advisable to keep the membership small until we knew more about what was expected. Therefore, the members of the Board and its Clerk were made the nucleus of this committee, and while we have talked to several people who, we believe, would make good members and who have expressed a willingness to serve, we do not yet feel that it has been necessary to add them. The Board has delegated one of the members of the committee to attend a school in Boston which is being sponsored by the Federal and State Governments where all the information will be given as to the part they intend to take in this very important matter. This committee knows of no veteran that has not been prop-

erly taken care of, and in every instance, the desire of the veteran, whether it was to go to work, go to school, or to be returned to a military or naval hospital, was fulfilled.

We must again ask the townspeople to be patient with the condition of the streets and sidewalks as it is very difficult to get materials. We have received several complaints about the bad condition of streets and sidewalks and we assure you that we are doing everything possible to keep them in reasonable repair, and we ask you to use extreme care while walking or driving on the highways.

In the past year, the Selectmen and the Town have lost a good official, a good friend and a splendid advisor in the retirement of Elmer R. Harlow, as town accountant. His long service as town accountant and clerk of the Selectmen, made him one of the most valuable servants of the town, and without doubt, a great many of our officials have been better able to fill their positions because of his counsel. We want to take this opportunity to thank him for his patience with us and wish for him a long and happy retirement.

Respectfully submitted,

JAMES A. WHITE,  
HOWARD M. DOUGLAS  
JAMES T. FRAZIER  
JOHN A. ARMSTRONG  
WILLIAM H. BEEVER

Board of Selectmen.

# ANNUAL REPORT

of the

## Town Clerk

of the

## Town of Plymouth

---

Marriages - Births - Deaths

For the Year Ending December 31,

1944

## MARRIAGES RECORDED IN PLYMOUTH

### 1944

---

- Jan. 1 George William Banker, Jr. and Irene P. Jesse,  
both of Plymouth.
- Jan. 2 Edward Russell Silva and Olivia Claire Soares,  
both of Plymouth.
- Jan. 8 Joseph D. E. Bjorkman of Lowell and Mary A.  
Thomas of Plymouth, married in Kingston, Mass.
- Jan. 8 Peter Joseph Romano and Mary Dorothy Reed,  
both of Plymouth.
- Jan. 15 Clifden W. Devine and Pauline Mae Wood, both  
of Plymouth.
- Jan. 15 Charles F. Ellis and Jessie M. Libby, both of  
Plymouth.
- Jan. 17 Abbott Allen Raymond and Alice Louise Guy,  
both of Plymouth, married in Providence, R. I.
- Jan. 23 John R. Bennett of Quincy, Mass., and Lillian  
F. Worcester of Plymouth, married in Plymouth.
- Jan. 24 Richard Maynard and Gladys Matilda Mosher,  
both of New Bedford, Mass., married in Plymouth.
- Feb. 6 James Rapoza and Frances G. Ryan, both of  
Plymouth.
- Feb. 6 William O. Strong, Jr., of Onley, Va., and Frances  
C. Johnson of Plymouth, married in Plymouth.
- Feb. 12 Delfo A. Cavicchi and Mirandy C. Viera, both  
of Plymouth.
- Feb. 15 Manuel Mello of Plymouth and Olivia Nogueira  
of Kingston, married in Kingston, Mass.
- Feb. 16 Michael F. Sullivan and Elena M. Mason, both  
of Plymouth, married in Quincy, Mass.

- Feb. 19 Armando Barboza of Kingston, Mass., and Nellie Janet Youngman of Plymouth, married in Plymouth.
- Feb. 20 Mahlon F. Leonard of Halifax, Mass., and Marion B. Kierstead of Plymouth, married in Halifax, Mass.
- Feb. 23 Earle R. Empey and Marion Pratt, both of Plymouth.
- Feb. 27 Carl Grigsby of Owensboro, Ky., and Elizabeth A. DiGenova of Plymouth, married in Plymouth.
- Mar. 7 Robert L. Qualls of Nashville, Tenn., and Rose M. Tassinari of Plymouth, married in Plymouth.
- Mar. 11 Emmett J. Biby of Waynesboro, Va., and Perina V. Cannucci of Plymouth, married in Plymouth.
- Mar. 11 Roger Borgeson of Plymouth and Olga Rickey of Boston, Mass., married in Boston, Mass.
- Mar. 14 Charles Monihan of Brockton, Mass., and Josephine Arlene Rose of Plymouth, married in Plymouth.
- Mar. 18 Lawrence J. Fohrder of Plymouth and Ethel McEnelly of Lynn, Mass., married in Lynn, Mass.
- Mar. 22 Roy James Webber and Evelyn Catherine Silva, both of Plymouth.
- Apr. 1 Harry Leslie Koster of Plymouth and Alice Macy of Hull, Mass., married in Hull, Mass.
- Apr. 9 John Viera and Alice M. Bussolari, both of Plymouth.
- Apr. 12 Thomas Gordon and Rose M. Dias, both of Plymouth.
- Apr. 17 Primo Zucchelli and M. Elvira Tosi, both of Plymouth.
- Apr. 19 Julius F. Vancini and Margaret M. Gross, both of Plymouth, married in Boston, Mass.
- Apr. 19 John J. Lawlor, Jr., of Cambridge, Mass., and

Agnes M. Barlow of Plymouth, married in Plymouth.

Apr. 22 William W. Pearson of Plymouth and Elva W. Dale of Boston, Mass., married in Plymouth.

Apr. 23 Marion L. Pimental and Alberta P. Pederzani, both of Plymouth.

Apr. 30 Laurence H. Stiles of Kingston, Mass., and Malvina M. Emond of Plymouth, married in Plymouth.

May 14 Joseph Henry Benea of Kingston, Mass., and Isabel Carmen Cravinho of Plymouth, married in Plymouth.

May 20 Carlo T. Guidoboni and Maria Brigida, both of Plymouth.

May 20 Eli Zaval of Plymouth and Shirley Helen Shrago of Dorchester, Mass., married in Attleboro, Mass.

May 21 Frank J. Santos and Elizabeth J. Martin, both of Plymouth.

May 21 Maurice Gilbert Hunt of Buffalo, N. Y., and Lucy Vodon of Plymouth, married in Boston, Mass.

May 21 Arold P. Malaguti and Catherine R. Leonardi, both of Plymouth.

May 25 Ernest F. Campbell of Warren, Pa., and Ruth V. Cross of Clearfield, Pa., married in Plymouth.

May 27 Frank C. Baker and Mary L. Quinn, both of Plymouth.

May 28 Clement J. Hill, Jr., of Russell, Ky., and Pauline A. Gilbert of Plymouth, married in Plymouth.

May 30 Benjamin P. W. Lovell, 3rd, of Kingston, Mass., and Blanche V. Borghi of Plymouth, married in Plymouth.

June 2 Francis James Scheid and Barbara Paty, both of Plymouth.

June 3 Joseph Luz and Madeline F. Wrightington, both of Plymouth.

June 4 Vincent F. Tassanari of Plymouth and Lillian C. Profita of Boston, Mass., married in Boston, Mass.

June 4 Henry O. Peterson of Duxbury, Mass., and Marie C. Soares of Plymouth, married in Plymouth.

June 8 Robert Whitman Proctor and Dorothy May Lyon, both of Plymouth.

	329

---

### MARRIAGES, 1944

Number Registered 128

---

### DEATHS, 1944

Number of deaths registered, 238, of which 49 were non-residents, and 40 died out of town, burial taking place in Plymouth.

---

There have been issued from the Town Clerk's Office for the year 1944, licenses as follows:

Resident Citizen's Fishing Licenses	328
Resident Citizen's Hunting Licenses	355
Resident Citizen's Sporting Licenses	233
Resident Citizen's Minor and Female Licenses	81
Resident Citizen's Minor Trapping Licenses	1
Resident Citizen's Trapping Licenses	9
Resident Citizen's Sporting (Free) Licenses	62
Resident Citizen's Military (Free) Licenses	50
Resident Citizen's O.O.A. (Free) Licenses	11
Special Non-Resident Fishing Licenses	17
Non-Resident Citizen's Minor Fishing Licenses	1
Non-Resident Citizen's Fishing Licenses	1
Duplicate Licenses	6
Male Dog Licenses	653
Female Dog Licenses	272
Kennel Licenses	3

HERBERT K. BARTLETT,  
Town Clerk

## REPORT OF SUPERINTENDENT OF STREETS AND SEWERS

---

To the Honorable Board of Selectmen:  
Gentlemen:

I herewith submit a report of the work done in the Street and Sewer Departments from January 1 to December 31, 1944.

### SEWERS

Several hundred feet of our Main Sewers have been dragged to remove tree roots that have collected in the pipes this past year. Manholes have been cleaned out and inspected. New manholes have been built on streets where there were formerly none.

### STREET CLEANING

The usual work of cleaning streets has been carried out this year. Catchbasins were cleaned and inspected and new ones built where they were needed.

### ASPHALT SIDEWALKS

No new sidewalks were built this year as materials were frozen by the War Production Board. A few sidewalks were patched with asphalt and sand to fill the holes and dangerous places made by tree roots. I have been informed that sidewalk material may be released in the spring of 1945, if so, more sidewalks will be resurfaced.

### HARD-SURFACING STREETS

The following streets were approved by the War Production Board for resurfacing with no new construction permitted for 1944: Court St., from the Plymouth and Kingston line to Lothrop St., with K. P. tar and peastone. The following streets were resurfaced with K. P. tar and peastone, dragged and rolled: Court St., Summer St.,

Whiting St., Water St., Fremont St., Allerton St., Prince St. The following streets were sealed with asphalt and sand: Davis St., Doten Road, Jordan Rd., and Sandwich Road. Several gravel roads were scraped and brought up to grade with gravel. Calcium chloride was applied to the gravel roads to lay the dust.

### SPECIAL BUDGET

Federal Furnace Road, Chapter 90 Maintenance, 4,700 feet of mixed-in-place top of retread tar and gravel was placed over the old road to a depth of 2 inches, mixed, shaped and rolled. Another section of one mile of this road was treated with the same construction, placing a 2 inch top surface over the old road. Both sections were sealed with asphalt and sand. Another mile of this same road was sealed with sand and asphalt. Great Herring Pond Road, one mile of this road was resurfaced with asphalt and gravel, mixed-in-place construction, from Plymouth and Bourne line to Lake Croft Inn. This makes a 2 inch top over the old pavement, 20 feet wide, sealed with sand and asphalt. One mile more will be completed in 1945 if material is available. Long Pond Road, two miles of this road was resurfaced with retread tar and gravel in two sections where the surface was broken up by the army trucks and tanks in 1943. One mile more will be resurfaced if material is released by the W. P. B.

### SIDEWALKS AND CURBING

Curbing in front of Mabbett's Mill, Water St., was raised and brought up to grade. Approximately 400 feet was settled by the heavy storms washing the water over the sea wall. Olmstead Terrace, approximately 300 feet of cement curbing was built on the northerly side. Several cement slabs have been removed that were lifted by tree roots and replaced with asphalt mix. This work will be continued this coming year.

HURRICANE WORK  
(Sept. 14, 1944)

There were approximately 3,500 trees blown over into the streets and on the top of houses in all sections of the town. It took about one month to clear the roads from fallen trees and debris. Extra men were hired in the outlying districts and in town so that the roads could be opened as soon as possible. This work was done with the help of the Tree Dept. and Park Dept. A gasoline shovel on a trailer was hired to remove the trees and stumps on all the streets in town at an approximate cost of \$7,500.00, labor included.

The usual work in the outlying districts has been carried out with the graveling of roads and the cutting of the brush.

Lines and grades for streets and sewers have been supplied by Edward Chase, Town Engineer, and records of same kept on file.

The several requests for work to be done on roads and sidewalks will be given attention as soon as the War Production Board releases these materials.

Respectfully submitted,

ELMER C. CHANDLER

Supt. of Streets and Sewers.

**ANNUAL REPORT OF THE PLYMOUTH  
BOARD OF HEALTH  
1944**

---

Your Plymouth Board of Health has carried on the usual health activities during the past year. No effort has been spared to maintain the health of the community at a high level and to take such steps as may have appeared necessary to guard the public health.

Our Sanitary Inspector, Mr. Harold E. Giles, has made regular inspections of all places serving foods and as a result of these inspections the sanitary standards of our food places has greatly improved. The usual number of complaints has been investigated and satisfactory adjustments have followed.

The inspection of milk at periodic intervals progress smoothly and with highly satisfactory results. Regular analysis of milk samples from all sources has been made as a result the quality of milk sold in Plymouth is at a high standard. The milk samples are collected by Mr. Giles and are analyzed by the Steele Dairy Laboratory of East Bridgewater. Mr. Steele has been of invaluable assistance to the Board with his recommendations and suggestions and his willingness to respond immediately to any emergency situation which might arise. We believe that the standard of milk sold in Plymouth today has never been at such a high level as it is now.

Last year there were fewer complaints about the public dumps, due in a large measure to more careful supervision and the expenditure of a modest sum of money for the hiring of bull dozers to level the dumps and keep them in decent condition. The Obery Street dump has reached a point where it will soon have to be abandoned.

We foresaw this situation three years ago when we arranged with the Plymouth County Commissioners to lease fifty acres of land on the South Pond Road at a rental of one dollar a year for use as a public dump. This property is ideally situated and should serve the town for the full length of the lease. We have not yet been able to make use of this land due to the lack of a water supply but hope to correct this situation through the installation of an independent water supply system. Town water cannot be used because of lack of pressure at this location. The Board intends to ask the town to appropriate the sum of four thousand dollars for the installing of a water system adequate to take care of the dump and to provide suitable fire protection. A detailed estimate of the cost is not available at this time but it is believed the cost will be less than our maximum estimate of \$4,000.

At the annual town meeting in March 1944 an appropriation was made for the collection of garbage in Manomet. This work was let out to contract to Charles W. Craig at a price which made it possible to operate this additional garbage collection service for two years out of the sum appropriated in 1944. Mr. Craig has carried on his work with complete satisfaction to the Board. The work started in June with two collections weekly and was reduced to one collection weekly during the winter months. There were few complaints and these were attended to promptly. The collection of garbage in Manomet and the hiring of a man for part time work on the Manomet dump completely eliminated the appalling conditions that had existed at the Manomet dump for a period of many years.

Weekly clinics have been held at the Board of Health rooms for the treatment of venereal disease cases, vaccinations, etc., of persons unable to pay for treatments.

We feel that continued emphasis should be placed on immunization clinics for protection against diphtheria.

In this work we are receiving wholehearted cooperation from the Plymouth School Department, their school physician and school nurse. It will be noted from the table of contagious diseases in this report that there were no cases of diphtheria reported during the past year which is evidence that immunization clinics are well worth while. The number of scarlet fever cases continues to be a problem for the Board. We have worked in close cooperation with the State Department of Public Health but thus far have been unable to determine the source of this disease. It is interesting to note that the number of scarlet fever cases begins to rise with the opening of schools which leads us to the conclusion that there is a close relationship between the gathering of children and the number of cases of scarlet fever. Why this is so we do not know but are working to determine the cause and to eliminate it. Until the cause can be determined with any degree of exactness all that can be done is to segregate and quarantine the cases, watch the school children carefully and if necessary take drastic steps to curb the spread of the disease if it shows any indications of getting out of control. The public may be assured that its Plymouth Board of Health will leave no stone unturned to keep the spread of this disease under control. There were 106 cases of scarlet fever reported during the year, which is far above the normal number of cases which should be expected. This same situation appeared to exist in other communities. Parents would be protecting the health of their children if they kept their children out of public places during the time that scarlet fever is most prevalent.

Contagious disease report for year ending December 31, 1944:

	64	34	34	42	21	11	10	8	3	5	26	38

During the year many questions have been asked the board about fumigation. We think it well to report what the State Department of Public Health has to say on this subject. In a bulletin issued in September, the State Board said, "Ideas concerning disinfection have changed a good deal in the last few years. Current practice during the early 20th century centered to a large degree on fumigation. To the laity, this meant burning sulphur candles; to the health officer it meant fumigation with formaldehyde gas.

At the present day fumigation has been abandoned as terminal disinfection in the case of communicable disease. But nonetheless disinfection is still as necessary as ever; methods, only, have changed. The emphasis is now laid on concurrent or day by day disinfection during the course of a disease. The care of the patient suffering from typhoid fever or other enteric diseases is an excellent example of such disinfection, the neglect of which in the past has caused many an epidemic.

Information is often sought regarding the disinfection of books used by a patient in isolation for communicable

disease and what to do with a school room in which cases of communicable disease have been found. Because germs are as a rule short lived outside the body, it is sufficient treatment for books to keep them out of circulation for three months with exposure to sunlight and air on several successive days. Soap and water, fresh air and sunlight amply take care of school rooms.

Fumigation, though no longer used to kill germs in rooms, should not be dismissed too cavalierly from consideration. It is highly useful in destroying vermin of all sorts which may spread disease. Sulphur dioxide is often employed by laity though hydrocynnic acid gas is the one more often used by professionals. The latter gas, however, is highly dangerous in the hands of those unskilled in its use."

During the past year the number of plumbing inspections has been at a low level due to the lack of supplies and labor but it is expected a high increase in these inspections will follow when supplies and labor are available. The cost of the inspections is paid for by the town to the plumbing inspector but the fee that is paid to the town offsets this cost so the inspections, except for the modest sum allowed for travel expense, costs the town nothing.

The Board wishes to emphasize that all cases of communicable diseases, of which scarlet fever is one, must be reported to the Board of Health at once. There have been many instances where the disease has not been reported until late, if at all, which creates menace to the public health. Although the Board's reluctant to do so it will take court action if necessary to enforce the health laws.

The Plymouth Board of Health is YOUR board of health working in your interests. We want YOUR cooperation in maintaining the high standards of health which exist in the community.

MEDORA V. EASTWOOD, Chairman  
HERBERT S. MAXWELL, Secretary  
PAUL W. BITTINGER

**DEPARTMENT FOR THE INSPECTION  
OF BUILDINGS**

---

To the Honorable Board of Selectmen,  
Plymouth, Massachusetts.

Gentlemen:

I hereby submit my annual report on building activities  
in the Town of Plymouth during the year ending Decem-  
ber 31, 1944.

No.	Kind	Est. Cost
2	Single Family Dwellings	\$8,000
6	Summer Camps	3,000
6	Other Buildings	6,825
6	Garages	3,450
13	Additions and Alterations—Dwellings	7,950
15	Additions and Alterations—Other Bldgs.	12,000
<hr/>		<hr/>
48		\$41,225

Respectfully,

THOMAS A. BODELL,  
Inspector of Buildings.

## REPORT OF THE PARK COMMISSIONERS

---

The Board of Park Commissioners submit their report for the year 1944.

The receipts from the bathhouses and camping grounds amounted to \$1,777.32.

Mr. George Barlow, who for many years was caretaker of the Beach Park Bath House, retired this year and Mr. Fred Hallahan was appointed as caretaker.

There were many campers at the Nelson Street Camping Ground and the soft ball league played their games on the playground side of the camping ground.

Brewster Garden has had its usual care and attention. Owing to the dry season, the plants did not do as good as usual and the Japanese Beetle has done a great deal of damage. Some action should be taken to stop debris from being thrown in Town Brook. All small parks have had the usual attention.

On June 6th, Mr. J. A. Robert Quinn, President of the National League Baseball Club, with his field superintendent, Mr. Leathers, came to Plymouth, and with the Commissioners, Superintendent and Mr. Walter Haskell, went to the Standish Avenue Playground and laid out a baseball diamond. One half of the field has been loamed, graded and seeded. Owing to the dry season, it had to be seeded twice.

Veterans Field has enjoyed its usual popularity and has been very well attended especially in the evening. The U. S. Coast Guard Temporary Reserve Band of Plymouth Flotilla 1-601 gave an excellent band concert.

Morton Park has been more popular this year than usual. A new water system has been installed as recom-

mended by the Board of Health. Much damage was done to the bath house during the spring and all the windows have been replaced with solid wooden shutters.

Stephens Field has been very popular featuring baseball, football, hockey, tennis, picnics and bathing. The swimming classes were well attended here and at Nelson Street. The instructors taught the children soft ball and tennis when not instructing swimming lessons.

The hurricane during September caused great damage at Morton Park, Brewster Garden, Indian Reservation. At Morton Park there is an estimate of one thousand trees down which must be removed and about 75 acres should be trimmed. About two thirds of all the trees at Indian Reservation were uprooted. We hope to have the bathing and camping area cleared by Spring.

EDWARD J. E. HAND, Chairman  
JOHN SIEVER  
WILFRED SLOAN

Board of Park Commissioners

NINETIETH ANNUAL REPORT

of the

Water Commissioners

and

Superintendent

of the

Town of Plymouth

For the Year Ending December 31,

1944

## REPORT OF WATER COMMISSIONERS

---

The Board of Water Commissioners presents its ninetyeth annual report covering the year 1944.

The year was characterized by extremely dry conditions during the Spring and Summer months. Reference to the table of monthly rainfall, which accompanies this report, will show the very small amount which fell during May, July and August.

At the low point of the summer, the elevation of Great South Pond was 101.5 ft. which is lower than any previously recorded.

Heavier rains in the Fall improved the levels of the ponds and at the end of the year Great South Pond stood at 102.1 ft., which was eight-tenths of a foot lower than at the beginning of the year.

The total rainfall for the year was 41.48 inches, which was 3.68 inches more than in 1943 but 3.82 inches less than the ten year average of 45.30.

During the Summer it was necessary to ask all water takers to be very careful not to waste water and to use the hose only for the watering of food crops and then for not over one hour per day.

In general our request received excellent co-operation and resulted in saving considerable water.

### GREAT AND LITTLE SOUTH PONDS

During the periods of heaviest consumption, it was difficult to maintain the flow of water from Great South into Little South because of the low level of the water. The canal between the two ponds required digging at frequent intervals. In spite of this, the depth of water over the outlet pipe at Little South was reduced to such a point that the Commissioners felt that means should

be provided to insure an adequate flow from Great South, even if it went to a still lower level. The sandy canal acts as a valuable purifier and it was felt should be continued as an open ditch, but if the water level continued to fall, an adequate flow would require considerable and expensive digging. Accordingly, investigations were made and it was finally decided to install a low lift pump of high capacity in the concrete culvert at the outlet of Great South Pond.

It was felt that a real emergency might develop, if the level of the ponds continued to fall or if lower levels should be reached at a later time. It is interesting to note that a pump of this kind was suggested by Mr. Fuller, an engineer who made a report on the water system in 1906. Because of current conditions, it required several months to get the pump delivered and installed, but it was in place and tested late in the Fall. When operated by the emergency engine of the department, it delivered over 9,000 gallons of water per minute, which is ample to provide an adequate flow through the canal into Little South. It is planned that this pump will only be used when the ponds are very low or under emergency conditions.

#### SEPTEMBER HURRICANE

The tanks and pumping stations of the department did not suffer important damage from the hurricane, although the roofs of the buildings at Lout Pond required some repairs and considerable work had to be done on the roofs of the Howland Street shop and the storage sheds.

Electric power at the pumping station was off for about forty-six hours and the need was demonstrated for emergency equipment to furnish lights and power for the fuel pumps, etc. Such equipment was purchased, when it was found possible to do so, and is now available for use at the station. A proof of the need for it occurred within a few days after it was received, when the power was interrupted for several hours.

The pumping station at Deep Water Bridge could not operate for about two days after the hurricane but the Fire Department loaned an emergency trailer pumping unit which was set up on Summer Street, and pumped into the new high service system through a hydrant. This maintained the water supply for that area. We were pleased to loan our compressor unit to the Fire Department for its use in maintaining the pressure in the central station air system. Another unit of the Fire Department furnished water to the White Horse Beach Water Company, pumping from one of our hydrants.

#### SURVEY OF THE PITOMETER CO.

The Pitometer Company finished the survey of our distribution system in May, the first part having been done the previous November, as referred to in our report of 1943. Although no additional large leaks or water wastage was discovered, several smaller ones were located. We feel that the survey was very much worthwhile.

#### STORAGE TANKS

The water tank on the westerly route which supplies the new high pressure system has been equipped with electrical apparatus to prevent corrosion of the interior of the tank. The painting of the inside of any of our tanks is a difficult and expensive job. The tank must be drained and kept empty for several days, which is unsatisfactory and dangerous in case of fire. The type of apparatus which was purchased and installed is in use in many places in this area and results appear satisfactory. The Commissioners recommend that the same type of equipment be installed at the Stone Tank at Rocky Point. It has been about seven years since the inside was painted and protection from corrosion is needed.

The exterior of the tank at Mr. Harlow's at Manomet, of the tank at the Pine Hills, and of the tank on the Westerly Route, have all been painted during the last year.

### MANOMET

Collections from the sale of water in Manomet for the last two years have been as follows:

1943	\$7,022.10
1944	6,300.79

In May 1944 the minimum meter rate for service in Manomet was reduced from \$16. per year to \$12. per year.

During 1944, twenty-nine new services were connected and other applications have been received which will be taken care of as soon as manpower and materials are available.

During the Summer it was evident that the consumption in Manomet had reached the capacity of the wells at Warner's Pond and that an additional supply was needed during the periods of the heaviest consumption. Therefore, the Board arranged with the Chapman Company to drive a new eight inch well near the ones already in use, and this has been done. Because of unavoidable delays, it was not completed to its depth of ninety-three feet and the well screen installed until late in the Fall. It is planned to complete the installation, including final tests of the capacity, as soon as possible this Spring. Funds for this purpose are included in our request for an appropriation for construction purposes.

### PUMPING STATION AT LOU POND

Both the Wolverine and Fairbanks-Morse engines have operated satisfactorily during the past year. Heat exchangers have been installed on the cooling systems which have permitted the operation of each engine at the most advantageous temperature, made a considerable saving in the cost of electric power purchased, and eliminated the fan and radiator of the cooling system.

### ENGINEERING SURVEY

In the opinion of the Water Commissioners, there should be a comprehensive survey of the Water Department by competent engineers. The Town owns and

operates an extremely valuable and important public utility and should be fully advised by some outside authority not only as to its present condition, but as to the improvements, additions and betterments which should be undertaken in the years to come. We feel that when conditions make it possible to undertake new work, a plan should be ready so that separate projects will not be started independently, but as a part of a long range program for the development of the department. We already know that we have a considerable amount of old and undersize mains which should be replaced, but the report we have in mind goes much beyond that and should cover the supply of water, pumping, storage, distribution, etc. throughout the entire area served. We have communicated with several engineering firms and find that the cost of such a survey and report by the firm which we are prepared to recommend would be \$3,000. We are asking for this appropriation from the Town, in order that this survey may be undertaken this year.

#### GENERAL MAINTENANCE

Both of the trucks operated by the Department and the superintendent's car have been equipped with rebuilt motors and should be in condition to give satisfactory service for another year. When conditions permit the trucks should be replaced. A new motor driven trench pump is very badly needed as the one now available is very old, in poor condition, and of inadequate capacity.

An emergency portable lighting unit has been purchased and is of great help when night work is necessary.

The interior of the engineer's house at Lout Pond has been painted and papered.

#### JOHN L. MORTON

It is with deep sorrow that we record the death of John L. Morton. He had served as a member of this Board since 1921 and as Chairman from 1942 to the date of his death.

He was a faithful servant of the Town, very much interested in the work of the Water Department, and always ready to give unlimited time and effort in its behalf.

Mr. Arthur Addyman was elected to fill the vacancy on the Board caused by Mr. Morton's death.

The Board wishes to record its appreciation of the co-operation of all the members of the Water Department, who have carried on their work well and faithfully under conditions which have sometimes been difficult.

#### LAND BORDERING LITTLE SOUTH POND

At the time of writing this report, negotiations are in progress with Mr. John J. McCarthy regarding the purchase of land owned by him on Little South Pond. If a mutually satisfactory price can be agreed upon, the Town will be asked for an appropriation to cover the purchase of this property. The Commissioners believe that it is important for the Town to continue the program started several years ago, of acquiring the land bordering this pond.

Similar negotiations are being held with Mr. George T. Paraschos and Mrs. Lillian F. Paraschos.

The operating expenses of the Water Department have been increasing and there seems to be no prospect of any change of direction in the near future. The increased costs of labor and material and supplies cannot be avoided. There is a considerable amount of deferred maintenance to be taken care of when it is possible to do so, as well as extensions and improvements. The program for the installation of meters should be carried on until practically all private services are metered.

Financial statistics are omitted from this report as they are included in the report of the Town Accountant.

A detail budget for 1945, and a comparison with the budget and expenses for 1944, has been submitted to the Finance Committee.

APPROPRIATIONS REQUESTED FOR 1945

General Maintenance and labor	\$25,555
Salaries	17,000
Engineering Survey	3,000
Construction	2,000
Acquisition of land at Little South Pond (McCarthy)	1,500
Acquisition of land at Little South Pond (Paraschos)	2,600

Board of Water Commissioners,

EDWARD R. BELCHER, Chairman  
RICHARD T. ELDRIDGE, Secretary  
C. BROOKS HUDSON  
ARTHUR ADDYMAN  
DANIEL F. MULCAHY

SUMMARY OF STATISTICS

(Published by request of the New England Water  
Works Association, Plymouth, Mass., Water Works.)

Population, 13,175.

Date of Construction, 1855.

By whom owned, Town.

Sources of Supply, Great and Little South Ponds and  
Wells at Manomet System, Addi.

Mode of Supply, Gravity for low service and Pumping  
for high service, Wells.

PUMPING

Builders of pumping machinery, Fairbanks, Morse and  
Wolverine-Gould.

Description of fuel, Oil.

Amount used, 9,226½ gallons.

Pumpage for the year:

Wolverine-Gould,	105,941,000 gals.
Fairbanks-Morse,	219,197,000 gals.
NHS (Electric),	16,934,000 gals.

---

342,072,000 gals.

Average static head, 68 ft.

Average dynamic head, 74.5 ft.

Number of gals. per gal. of fuel oil:

Wolverine-Gould,	30,805
------------------	--------

Fairbanks-Morse,	37,874
------------------	--------

Duty of Pumps:

Fairbanks-Morse,	174,058,000
------------------	-------------

Wolverine-Gould,	141,573,000
------------------	-------------

#### COST OF PUMPING FIGURED ON PUMPING

STATION EXPENSES, VIZ: \$8,143.64

Per million gallons against dynamic head into direct pipe \$23.806.

Per million gallons raised one foot high (dynamic), \$0.3195.

#### COST OF PUMPING FIGURED ON TOTAL

MAINTENANCE, VIZ: \$31,642.20

Per million gallons against dynamic head into direct pipe \$92.501.

Per million gallons raised one foot high (dynamic) \$1.241.

#### STATISTICS ON CONSUMPTION OF WATER

Total population, estimated 13,175.

Estimated population on pipe line, 12,500.

Estimated population supplied, 12,500.

Total consumption for the year, 570,628,000 gallons.

Average daily consumption, 1,564,000 gallons.

Gallons per day to each inhabitant, 118.

Gallons per day to each tap, 440

#### STATISTICS RELATING TO DISTRIBUTION SYSTEM

Kind of pipe, Cement lined sheet iron and cement lined cast iron.

Sizes, From 2-inch to 30-inch.

Extended, None.

Discontinued, None.

Total now in use, 79 miles, 333 feet.

Cost to repair per mile, \$7.11.

Number of leaks per mile, .201.

Small distribution pipe less than 4-inch, 8 miles, 2,831 feet.

Hydrants now in use, 333 public; 73 private.

Stop gates added, None. Discontinued, None, Number now in use, 877.

### SERVICES

Kind of pipe, Lead and Cement lined.

Sizes, From one-half to four inches.

Extended, 194 feet; Discontinued, None.

Total now in use, 10 miles, 1,688 feet.

Service taps added, 33. Discontinued, None.

Total now in use, 3,552.

Average length of service, 12.1 feet.

Average cost per service, \$24.12.

Number meters added, 6

Number now in use, 2,804.

Percentage of services metered, 78.9.

---

### SUPERINTENDENT'S REPORT

To the Board of Water Commissioners

Gentlemen:

In spite of the labor problems and the many difficulties in obtaining material, it has been possible to cover, fairly well, the routine and the emergency work of the department.

The first quarter of the year we were confronted with many leaks in both main and services after the extreme winter weather. During the year, sixteen main leaks and forty-three service leaks were repaired. These were followed up with drilling about forty corporations with the result that the takers in each case were satisfied with the improvement to the service.

Thirty-three new services were added, these being absolutely necessary. Twenty-nine were in Manomet and the others down town.

Considerable time was spent on repair and replacement of meters, every possible part in stock being utilized since, at times, it was impossible to purchase any of this material.

A great deal of time was given to clearing the canal between the ponds and cutting brush and burning at the reservoirs.

Several hydrant breaks were experienced, and the usual inspection of both hydrants and gates was carried on.

Samples of water from taps were submitted, weekly, to the City of Brockton laboratory. Also, samples from both taps and ponds were forwarded to the State Department of Health at times specified by that department. Reports of findings in all specimens are on file in this office.

The Auxiliary Well Supply at Manomet was in operation for 384½ hours during the months of June, July, August and September, consuming 770 gallons gasoline and 5 gallons lubricating oil. 3,469,000 gallons of water were pumped.

Respectfully submitted,

THEODORE BRINK,  
Superintendent.

## **REPORT OF HARBOR MASTER FOR 1944**

---

To the Honorable Board of Selectmen:

Gentlemen:

My records show that 1,226,000 pounds of fish were landed at Plymouth wharves during 1944.

A total of 4,090 boats of all kinds were in and out of Plymouth Harbor during the year.

There was much more damage to boats during the hurricane last Séptember than there was six years ago.

Dories reported missing	44
Missing dories recovered	36
Dories reported found	19

Respectfully submitted,

ELMER P. BOUTIN,  
Harbor Master.

---

## **REPORT OF TREE WARDEN DEPARTMENT**

To the Honorable Board of Selectmen:

Although during 1944, the Elm Beetles were not as plentiful as in former years, yet many of the elms were sprayed for safety. No damage was done the street trees by Gypsy or Brown-tail moths.

Trimming was done as far as possible with the amount of help available. Much work will be needed during 1945 to clean up damage by the hurricane and by other high winds later. I give much credit to the Highway Department for valuable help during the hurricane.

Respectfully submitted,

ABBOTT A. RAYMOND  
Tree Warden.

## **REPORT OF GYPSY AND BROWN-TAIL MOTH DEPT.**

To the Honorable Board of Selectmen:

This department managed to get practically all of the Gypsy and Brown-tail moths cleaned from the residential parts of the Town. Owing to the shortage of help it was impossible to get all roads and shore property sprayed in time, which made the moths more plentiful in the outlying districts. Another reason for that was that when the tiny moths were in the "blowing" stage we had so many south west winds that blew them out of the woods into the open.

The Brown-tail moth nests were cut and burned throughout the entire Town; about five thousand in number.

Respectfully submitted,

ABBOTT A. RAYMOND,

Moth Superintendent.

---

## **REPORT OF COMMITTEE ON INLAND FISHERIES**

To the Honorable Board of Selectmen:

Gentlemen:

The appropriation of three hundred dollars for the year 1944 was expended for yellow perch. This year we are going to devote our efforts toward increasing the supply of white perch and black bass.

The catch of white perch has fallen off noticeably during the past three years and it is our desire to remedy this condition.

The Committee requests that the sum of three hundred dollars be again appropriated this year to aid us in our work. We would gladly welcome any suggestions relative to matters concerning our pond fishing.

Respectfully submitted.

FRANK L. BAILEY, Chairman

GEORGE L. GOODING

HOWARD M. MORTON

## REPORT OF THE TOWN ENGINEER

---

To the Honorable Board of Selectmen:

During 1944 construction was carried on at the Town Wharf according to plans and specifications furnished by the Town Engineer. The work was inspected during construction and approved.

Plans were drawn and estimates made for enlarging the playground at Hedge school.

Specifications were drawn up for repairing the Fish Wharf.

Lines and grades were furnished for the construction of curbing on various streets.

Plans were made of Town-owned properties.

Various maps and plans were drawn for the Board of Assessors.

Miscellaneous surveying work was done for the Street Department, Park Department, and School Department.

Respectfully submitted,

EDWARD CHASE,

Town Engineer.

## **ANNUAL REPORT OF THE FIRE DEPARTMENT FOR THE YEAR 1944**

---

To the Honorable Board of Selectmen:

Gentlemen:

The high degree of efficiency is still being maintained as will be seen by the report.

The department answered 425 calls; Box alarms 128; Still alarms 286; Radio alarm 11.

The assessed value of buildings and contents involved by fire was \$1,284,010.00, the loss being \$24,076.00, based on 13,500 inhabitants, shows a loss of about \$1.85 per person and 1.87% of property involved.

### **BUILDINGS**

There is considerable work to be done on the buildings, the walls of Central Station should be repointed as the water is penetrating them very badly; the main doors of North Station should be replaced; the building at the rear of Central Station, the sills and foundation require replacement to prevent building from collapsing.

Estimates for the above work are being received and the necessary amount will be placed in the budget for 1945.

The South Station is in good condition.

### **FIRE ALARM**

The outside lines are in good condition but should be extended south from Cliff Street to junction of Warren Avenue and State Highway.

### **RADIO**

The Radio is still proving of immense value and undoubtedly will be more so when the installation of F. M. sets are completed, money for which was appropriated, 1944. There has been delay on account of War Production Board Priority.

### APPARATUS

All the apparatus are in good condition. Engine One, purchased in the year 1924, has been given a thorough overhauling and painting, the work being done within the department.

### REPAIR DEPARTMENT

This department has proven to be of immense value, not only to this department, but to the Forest Fire Department; all repair work of both departments being taken care of.

### ORGANIZATION

Fire Commissioner, Henry Walton; Fire Chief Everett B. Wood; Deputy Chief, Clifton B. Hatton; Fire Department Surgeon, Dr. William E. Curtin; Chaplain, Reverend Ernest Pugh; 3 Permanent Captains, 1 Call Captain, 1 Call Lieutenant, 13 Permanent men, and 35 Call men.

### REPORT OF FIRE DUTY

Miles traveled—6,401.3; False Alarms 3; Rescue Boat, 6; E & J Resuscitator, 8; Feet of hose laid—24,350 ft. of 2½-inch, 10,900 ft. of 1½-inch, 114,810 ft. of ¾-inch. Water from booster tanks 123,245 gallons; 253 gallons of Chemical; 2,843 feet of ladder used.

## REPORT OF FOREST FIRE WARDEN

Honorable Board of Selectman:

I herewith submit report for the year 1944.

### APPARATUS

The Brockway Truck purchased in 1924, the tires on this truck could not be replaced and it was therefor necessary to take steps to replace it. This was approved by your Honorable Board, and a U. S. Army Dodge, 1½ ton four wheel drive was purchased and converted into a forest fire truck, at a very nominal cost and has already proved to be an excellent truck.

Money was also transferred by the Finance Committee to purchase another truck, which also was approved by your Honorable Board; unfortunately there have been none available since the money was transferred. It is hoped that when the trucks are available that it will be possible to secure not only one more 1½ ton truck, but two ¾ ton Weapons Carriers and a Jeep, to be used as a Chief's car for woods fires, thereby saving the regular department's Chief's car, which is not suitable for woods work.

### CONDITION OF WOODS

As previously reported the condition of the woods as to fire hazard is extremely bad and dangerous, caused by the hurricane and recent wind storms.

Should a fire get a good start it is going to be very difficult to combat with the light machines that we now have, which is one reason for requested additional apparatus with four wheel drives.

It is to be hoped that the plan for cutting all fallen

trees from woods roads, will be carried to completion before March 1, 1945.

I might add that the Massachusetts Department of Conservation consider conditions so hazardous that if there is no snow on the ground February 1, the Fire Towers are to be manned, this being the earliest that the towers have been operated since their use.

#### FIRES

We had 36 forest fires this year, and burned over  $185\frac{7}{8}$  acres. Two fires, one of 150 acres and one of  $29\frac{1}{2}$  acres; all other fires being less than one acre. 30,475 feet of hose laid; gallons of water pumped 31,130; 203 gallons chemical, and miles traveled 2,566.3 which upon analysis, shows acreage per fire  $5\frac{1}{6}$  acres.

#### BUDGET

Of the 1944 appropriations, we have the following balance:

Salaries	\$2,154.12
Fire Pay Roll	183.62
Equipment Maintenance	81.60
For Truck	700.00
	<hr/>
	\$3,119.34

HENRY WALTON,  
Forest Fire Warden.

---

### REPORT OF THE TOWN FOREST COMMITTEE

To the Honorable Board of Selectmen:

Not much work done in the Town Forest this year owing to lack of help. Fire lanes were plowed and roads kept passable. No fires reported in Forest this year. Hurricane damage being cleaned up by County at no expense to the Town.

Respectfully submitted,

ABBOTT A. RAYMOND, Chairman  
ARTHUR W. WESTON

## REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen:

Following are the reports and activities of the Police Department for the year ending December 31, 1944.

Number of arrests for the year 1944:

Males	313
Females	30
<hr/>	
Total	343

Amount of Fines Imposed	\$1,870.00
Property Recovered	11,391.70

### MISCELLANEOUS WORK BY DEPARTMENT

Complaints Investigated	2,000
-------------------------	-------

Automobile Accidents Investigated:

Fatal	1
Pedestrian	7
Personal Injuries	33
Property Damage	81
<hr/>	

Total automobile accidents investigated	122
---	-----

Prisoners detained for other departments	20
Summonses served for other departments	35
Summonses (no-fix) issued	86
Trips guarding mail	88
Bank alarms (false)	8

Fatal accidents investigated:

Drownings	3
Suicides	1
Sudden deaths	5
<hr/>	

Total fatal accidents investigated	9
------------------------------------	---

Street lights reported out	25
Store lights reported out	2
Doors found unlocked	33
Beacon lights reported out	6
Fire alarm lights reported out	1
Fire alarm glasses reported broken	1
Night lodgers	10
Missing persons located	5
Lost children returned	31
Dead animals reported to Board of Health	26
Dog complaints to Mr. Cadman	51

MILEAGE OF DEPARTMENT

Patrol Wagon	688
Cars	64,874
Motorcycle	2,500
	<hr/>
Total Mileage	68,062

Respectfully submitted,

RUSSELL P. DEARBORN,  
Chief of Police.

## REPORT OF BOARD OF RETIREMENT

---

To the Citizens of the Town of Plymouth:

The Board of Retirement presents herewith its eighth report covering the activities and condition of the Contributory Retirement System for the year 1944.

The law requires that every new employee of the town under 55 years of age must join the Retirement System, unless we know at the time he starts work that his employment is for less than 60 days. It also requires that every new call man and special police officer must join the System, although they cannot be retired for superannuation. These two factors are responsible in large part for the many constant changes in membership in the System.

We have retired three of our members for superannuation during the year and lost three of our former pensioners by death, the number of pensioners at the close of the year thereby remaining as it was December 31, 1943.

Investing the funds of the System is becoming increasingly difficult. Investments must be made from the lists legal for Savings Banks and at the present time 2½% government bonds are about the only investment available. Since the members' contributions as well as the other funds of the System must be credited with 3% interest compounded monthly, there is little chance at the present time of eliminating the appropriation by the town for interest deficiency.

Our list of members in military service remains the same as last year:

Maynard S. Holmes  
George S. Bell  
James Leland

Gaetano Brigida  
Arthur Caranci

Call Firemen:

Harrison C. Chandler  
Albert C. Hatton  
Elmer T. Holman

Richard S. Keough  
George Mabbett  
William A. Strassel

Cora B. Grady permanent member of the Board December 4, 1944 by virtue of her office.

## REPORT OF THE BOARD OF PUBLIC WELFARE

---

The Board of Public Welfare presents herewith its Annual Report for the Year 1944.

The year 1944 brought a new group of responsibilities and problems to our Department of Public Welfare. Although financial aid to the needy has been the predominating function, the demand for Social Services has immeasurably increased, caused by every one of the readjustments of the War-population movement, drafting of men for the Armed Services, employment of women, older workers and children. The Department has become considered, and naturally so, the logical place for people in trouble to turn for information, guidance and counseling advice.

The change has come gradually but is of enormous importance as we look to the "after the war" period and our anticipated job during and following the demobilization of our Service men and women and the dislocation of War workers.

It has been the aim of the Department to undertake to assure security and opportunity for effective social adjustment to people on an individual basis by meeting the needs not otherwise provided for. Such needs include the provision of adequate financial assistance to the needy, protection from social exploitation for those who are unable to help themselves because of physical and mental weaknesses, and services facilitating social and family adjustment. These functions are unique and different unto themselves and are essential to a sound functioning community, not only because it is impossible for an individual to wholly control his own destiny, but also because the welfare of all depends on the protection of all. Thus the Department of Public Welfare has be-

come associated with those functions which require the skills of social work.

As our social methods improve we are finding many ways of assuring security and of preventing need for public assistance by guiding and assisting people to become self-supporting, but public assistance must always be available as a last resort when other measures fail to meet the particular need of the individual.

Your Department of Public Welfare is looking forward to the post-war period with considerable interest. It is obvious that the responsibility of the Department cannot stop with the mere granting of financial assistance to the needy. The extension of our activity into the field of services which have become accelerated by the economic and wartime needs will continue into the post-war period and will be increased by the individual and family problems of the veterans during the demobilization process; the problems affecting children; (the greatest problem of juvenile delinquency of the last world war came after the fighting was over) the increasing number of desertions; the inevitable problems which will result from the many hasty war marriages are obvious; the social aspects of migration; and the problems of the aged.

During the year 1944 we have had very fine cooperation from, and have made every effort to cooperate with, the Jordan Hospital, Community Nurse Association, Fragment Society, American Red Cross, Selective Service, Soldiers' Relief Department, and our local physicians, dentists, druggists, manufacturing and business establishments.

The careful, conscientious and commendable work of our staff has been responsible for the efficient and adequate distribution of public assistance within our community. By regular home visiting and with the present case work practices those persons and families eligible and entitled to financial assistance have been sufficiently assisted, and the Board of Public Welfare with consider-

able satisfaction is turning back to the Town of Plymouth \$10,775.89 to the Excess and Deficiency Fund from which fund the Town of Plymouth receives further financial benefits.

One hundred and nine "outside aid" cases have been assisted by the General Assistance Department during the year 1944. The expenditures and receipts were as follows: Salaries (including Board Members) \$7,400.42; other administrative expenses \$643.10; "outside aid" (including aid in other cities and towns for persons having a financial settlement in Plymouth) \$25,404.62; reimbursements from the Commonwealth of Massachusetts other cities and towns and individuals were \$4,853.41; income from trust funds \$94.84; leaving the cost to the Town of Plymouth for "outside aid" granted \$20,551.21. Total operating costs to the town \$28,499.89.

#### INFIRMARY

The demands upon the services and facilities of the Town Infirmary have presented no unusual problems during this past year. Some of the most needed repairs have been made but much remains to be done. The hurricane damage has been taken care of temporarily, and the major repairs must necessarily be delayed until after the War activities have been concluded. Sixteen persons have been cared for this year with the expenditures amounting to:—Salaries \$2,274.58; other administrative expenses \$2,348.60; "inside aid" \$3,422.63; amounts received from the Commonwealth of Massachusetts, other cities and towns and from individuals \$2,063.83; from trust funds \$6.03; rentals \$72.00; a cost to the Town of Plymouth for "inside aid" granted at the Infirmary for the year 1944 was \$1,358.80. A net cost to the Town of Plymouth \$5,903.95.

HAROLD S. DAMON, Chairman  
GORDON S. McCOSH, Secretary  
HAROLD G. ROBERTS

Board of Public Welfare  
Plymouth, Massachusetts

## REPORT OF THE BUREAU OF OLD AGE ASSISTANCE

---

To the Citizens of the Town of Plymouth:

The annual report of the Bureau of Old Age Assistance for 1944 is presented herewith.

During 1944 aid granted amounted to \$199,471.20, and other expenses amounted to \$841.92, making a total of \$200,313.12. Of this amount \$79,246.79 was received from the Federal Government and approximately \$84,164.05 from the Commonwealth of Massachusetts leaving a net cost to the Town of approximately \$36,902.28. An average of 373 cases per month were aided at an average monthly cost of \$43.81 each.

The cost of Old Age Assistance increased substantially in November and December of 1944 as prior to October 1, 1944 doctors were paid \$1.00 for office visits and \$2.00 for house visits. They were dissatisfied with this arrangement and asked that the rates for O.A.A. cases be on the same basis as those for other patients. A meeting was held with the doctors with representatives present from the State Department of Public Welfare, and an agreement was reached whereby doctors now receive \$2.00 for office visits and \$3.00 for house visits. Rates for nursing homes have also increased over last year and we are finding it necessary to place many people in these homes.

We have now had one full year of contributions from children in accordance with the new law. It is found that approximately \$750.00 per month is paid by them to their parents in cash and about \$250.00 per month in kind (free shelter, insurance etc.) This amount varies as the earnings of children fluctuate. There is a bill before the present legislature recommending that contrib-

utions from children be done away with entirely which, if passed, would mean considerable increase in the cost of Old Age Assistance.

Until October 27, 1944 the Bureau was composed of three members, Harold S. Damon, Chairman; Edmund J. Priestley, and Gordon S. McCosh. Mr. James Rae, Supervisor of O.A.A. and A.D.C., transferred to the State Department of Public Welfare on October 16, 1944, and Mr. Edmund J. Priestley was appointed to take his place as of October 28, 1944. Mr. Harold Roberts was appointed to the Board of Public Welfare to serve Mr. Priestley's unexpired term.

The total amount expended for salaries for 1944 was \$6,501.43 of which \$3,496.76 was contributed by the Federal Government leaving a balance of \$3,004.67 as the cost to the Town.

Respectfully submitted,

HAROLD S. DAMON, Chairman  
GORDON S. McCOSH  
H. G. ROBERTS

---

## **AID TO DEPENDENT CHILDREN**

---

To the Citizens of the Town of Plymouth:

Presented herewith is the annual report of the Board of Public Welfare for Aid to Dependent Children for 1944.

During 1944 an average of forty-three cases with eighty-three children received this type of assistance at a total cost of \$38,662.35, the average cost per case per month being \$75.76. On January 1, 1944 the case load was forty-four. During the year a total of fourteen cases were added and seventeen closed, leaving a bal-

ance of forty-one cases with eighty-one children on December 31, 1944.

Of the seventeen cases closed only five were closed because of receiving employment. The other cases were closed as the families left town, children finished school and were no longer eligible for A.D.C., mothers remarried, and for other reasons. No further decrease in A.D.C. is anticipated, but an increase in this category of assistance is expected. Any change in the employment situation would be reflected in the A.D.C. case load as most of those who have gone to work would again be eligible for A.D.C.

The Federal Government contributed \$7,486.57 in grants for this type of assistance during the year, and the Commonwealth of Massachusetts reimbursed the Town approximately \$12,887.45 which made the net cost to the Town approximately \$18,288.33.

The same staff that handles the category of Old Age Assistance also handles the Aid to Dependent Children cases. Money received from the Federal Government for administering Aid to Dependent Children is used towards their salaries. This amounted to \$841.42 during 1944.

Respectfully submitted,

HAROLD S. DAMON, Chairman  
GORDON S. McCOSH  
H. G. ROBERTS

**REPORT OF  
THE CEMETERY COMMISSIONERS  
FOR THE YEAR 1944**

---

The Board of Cemetery Commissioners present their report for 1944.

The routine work of maintenance of the various cemeteries under the charge of the Commissioners has been carried out as usual during the past year.

No effort has been made to develop the six acre addition to the Vine Hills Cemetery that was purchased in 1940, because we felt that the project was not an essential one to undertake at this time.

We have however made an estimate of \$30,000 as the cost of the complete development of this area and given this estimate to the Post War Planning Committee.

We believe this to be a very worth while project to take up some of the slack in case a serious unemployment situation develops.

The hurricane of September 14, caused considerable damage in several cemeteries.

In Oak Grove and Vine Hills Cemeteries approximately 150 trees of various sizes were blown down, but fortunately only slight damage was done to monuments.

On Burial Hill two large elms were uprooted causing incidental damage to the stone wall on Church Street.

Approximately 400' of the wooden fence surrounding Chiltonville Cemetery was blown down and should be renewed.

The Commissioners began at once the work of repairing some of the damage, and the Finance Committee

co-operated promptly by transferring \$1,000 from the Reserve Fund to our maintenance account. This permitted the work of clearing up to continue until January 1, 1945.

An arrangement was made with Davison and Dennett, who operate a saw mill, to come in and saw up the merchantable trees into logs, cart them to the mill and pay the Town \$3 a cord for the logs so removed. Forty-one cords were sold.

We believe the Town was saved a substantial sum by adopting this method of disposing of the logs.

The Department has had to incur additional expense to take care of the branches, unmerchantable logs and stumps, particularly the latter. A considerable amount of this work, as well as trimming broken trees and branches, remains to be taken care of.

We are asking for an appropriation of \$1,000 from the proceeds from the sale of Cemetery lots and graves, to be expended for improvements and additions, in order that the funds may be available if opportunity offers, to continue work on the roads in Oak Grove and Vine Hills Cemeteries, or do some filling on Samoset Street.

The requested appropriations for the various cemeteries are higher than the amounts asked for last year by the following amounts; \$1,000, on Oak Grove and Vine Hills Cemeteries, \$750 on Burial Hill, and \$500 on the outside cemeteries. We believe the increases are necessary to complete the damage caused by the hurricane.

Respectfully submitted,

ARTHUR E. BLACKMER  
EDWARD R. BELCHER  
RICHARD T. ELDRIDGE

Cemetery Commissioners.

## REPORT OF THE PLANNING BOARD

---

Report of the Planning Board for 1944 Report.

The Planning Board organized for the year 1944-45 with Allen D. Russell as Chairman and Arthur E. Blackmer as Secretary.

The Board spent some further time on its financial analysis of the Town and brought its figures up to date as soon as the 1943 Town Report was issued and the material available. These new figures are printed herewith and may be copied, by those interested in this branch of town planning, onto the large sheets which were inserted in every 1943 Town Report.

Through an oversight no lines were left for these figures in Table C., but directly above table C., are a set of lines which were not used for estimate and may be used for the table C., figures except for the total on the extreme right hand end. However, we would suggest that if you desire to keep these figures you use the Street Lighting column as a total column since there will probably never be a capital expense for street lighting by the town.

The Planning Board found little to do during the year except to keep its studies up to date and to assist as part of the Post War Municipal Planning Committee. The Town, like every other business, was handicapped by lack of man power and inability to get materials, so that there seemed to be little profit in planning things which could not be done anyway.

With the Post War Committee above mentioned a reserve of some fifty worthwhile projects were studied and collected. These projects if all carried out would cost in the neighborhood of half a million dollars, the greater

part of which would be for labor, and we take it that the principal object of this committee is not to spend money nor to buy materials but rather to have ready worthwhile jobs which will provide employment for those who may not be absorbed or retained in private enterprise. Furthermore none of these projects will require much in the way of maintenance once completed so that as we return to normal the town will not be burdened with continuing costs. And again, many of these projects will have to be undertaken some day so that if completed in the next few years the work will be completed for many years ahead. As an example we would mention the replacing, in some cases with larger diameters, many links in our water system which should be reaching the end of their normal life.

The Planning Board requests an appropriation of Two Thousand dollars for the fiscal 1945 year of which \$100.00 will be for salaries and \$1,900.00 for expenses.

Respectfully submitted,

ALLEN D. RUSSELL,

Chairman.

PART II

ANNUAL REPORT

of the

Town Accountant

of the

Town of Plymouth

For the Year Ending December 31,

1944

## THIRTY-THIRD ANNUAL REPORT OF THE TOWN ACCOUNTANT

---

For the year ending December 31, 1944

---

Plymouth, Mass., January 30, 1945

To the Board of Selectmen,  
Town of Plymouth.

Gentlemen:

I submit herewith report of the financial transactions of the Town of Plymouth for the year ending December 31, 1944, the several schedules being in the usual forms and in the following order:

Schedule A. Cash Receipts and Cash Payments as reported to the Division of Accounts of the Commonwealth.

Schedule B. Departmental and all special appropriations and such receipts, including Federal Grants, as may be legally expended without specific town meeting appropriation, with all payments from same classified as to purpose.

Schedule C. Estimated Receipts, other than from local taxes, as used, with the approval of the Tax Commissioner, by the Assessors in making the 1944 tax rate. Schedule also shows the actual cash receipts from the same sources.

Schedule D. Revenue Account for 1944.

Schedule E. Excess and Deficiency Account and list of all unexpended appropriation balances closed into it at the end of the year.

Schedule F. Balance Sheet, January 1, 1945.

Schedule G. and H. Bonded Indebtedness, January 1, 1945.

Schedule I. List of Trust Funds and Town Investments, *not including* the January, 1945, dividends.

Schedule J. Calculation of the town's borrowing capacity on January 1, 1945.

There are no overdrafts and no unpaid bills have been reported.

No money had to be borrowed on temporary notes during the year, the cash balance at the end of May, before the current year's tax money started to come in, being \$93,389.04. The cash balance at the end of the year was \$375,576.08 and the Excess and Deficiency balance \$308,745.69, both considerably larger than at the close of 1943, the balances then being high line figures on our record. Again the principal reason for the large cash balance is the prompt payment of taxes, together with the receipt of part payments from the State during the first half of the year of substantial amounts that heretofore have been held back until the annual settlement date in November or later.

The cash reserve was built up mainly by the return of nearly \$52,000 unexpended appropriation balances, as shown in Schedule E, and nearly \$47,000 excess of actual receipts over the amounts estimated in making the tax warrants. As shown in Schedule C, a large part of this latter amount was due to the increase in the reimbursement from the State for Old Age Assistance, due to the increased payments by the Town to Old Age Assistance recipients.

The only loan outstanding at the present time represents the balance of the cost of the New High School—\$72,000. This loan matures in January, 1951, with interest rate at only 2%.

Respectfully submitted,

Cora B. Grady,  
Town Accountant

Two per cent bonds, dated Jan. 1, 1936,  
payable \$13,000.00 annually 1939 to 1945  
and \$12,000.00 annually 1946 to 1951.   \$85,000.00  
Maturity date 1951.

## SCHEDULE I

---

### TRUST FUNDS

---

#### CEMETERY PERPETUAL CARE FUNDS

---

As the funds have to be written up at the bank at least three times each year, the only practical way of keeping them is in the order of deposit date and bank book numbers; the older funds at the head and new funds placed each year at the end of the printed lists.

A fund always appears in the same position relative to the others.

Beginning in 1940 and continuing in subsequent years sub-page numbers will be printed to facilitate reference to any particular fund by those interested.

An alphabetic index of the Perpetual Care Funds is kept in the Town House, for quick reference.

Deposited in Plymouth Five Cents Savings Bank:

Russell Tomlinson	\$211.21
Betsey C. Bagnell	378.09
Rebecca D. Ryder	575.42
Lydia W. Chandler	248.00

**September 6, 1944**

**The Commonwealth of Massachusetts**

DEPARTMENT OF CORPORATIONS AND TAXATION

DIVISION OF ACCOUNTS

State House, Boston

September 6, 1944

To the Board of Selectmen

Mr. James A. White, Chairman

Plymouth, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Plymouth for the period from October 11, 1942, to May 25, 1944, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts

Mr. Theodore N. Waddell  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Plymouth for the period from October 11, 1942, the date of the previous audit to May 25, 1944, and report thereon as follows:

The records of financial transactions of the several departments receiving or disbursing money for the town, or committing bills for collection, were examined, checked, and verified by comparison with the reports and records of the town accountant.

The town accountant's ledger was analyzed, the recorded receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments.

The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified by comparison with the records of the advisory committee.

A balance sheet, which is appended to this report, was prepared showing the financial condition of the town on May 25, 1944. An examination of this balance sheet indicates that the town is in very good financial condition.

The books and accounts of the town treasurer were examined and checked. The receipts were checked with the records of the several departments collecting money for the town and with other sources from which money

was paid into the town treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds. The cash balance on May 25, 1944 was proved by verification of the cash and cash memoranda in the office, and by reconciliation of the bank balances with statements furnished by the banks of deposit.

Payments made for maturing debt and interest were compared with the cancelled securities on file and also with amounts falling due.

The securities and savings bank books representing the investments of the trust, investment, and retirement funds in the custody of the town treasurer were examined and listed. The income was proved, the transfers to the town were compared with the treasurer's cash book, and the disbursements were verified.

The tax titles taken by the town on account of unpaid taxes were examined and the amounts added to the tax title account were compared with the collector's records. The tax titles redeemed were checked with the receipts as recorded on the treasurer's cash book, the disclaimers were verified, and tax titles on hand were listed and compared with the records at the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The taxes and assessments outstanding according to the previous examination and all subsequent commitments were audited and proved to the assessors' warrants issued for their collection. The reported payments to the treasurer were verified, the recorded abatements were checked with the assessors' records, the taxes transferred to the tax title account were proved, and the outstanding accounts were listed and reconciled.

The commitments of departmental and water accounts receivable were examined and checked. The receipts, as recorded, were compared with the treasurer's cash

book, the abatements were compared with the records of the departments authorized to grant such credits, and the outstanding accounts were listed and proved.

Verification of the outstanding tax, assessment, departmental and water accounts was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The financial accounts of the town clerk were examined for licenses issued and fees received. The reported receipts from dog, sporting, and other licenses issued, as well as from marriage intentions, recording fees, and miscellaneous charges were examined, the payments to the State and town being verified.

The surety bonds of the various town officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts of the selectmen, the police, health, public welfare, and school departments, and the sealer of weights and measures, as well as of all other departments collecting money or committing bills for collection, were checked with the treasurer's and the accountant's books.

Member of School Committee

April 1935 — December 1944

Died, December 11, 1944

---

## EXPRESSION OF APPRECIATION

With deep sorrow the School Committee records the death of J. Frankland Miller on December 11, 1944. Mr. Miller had been a member of the School Committee continuously since 1935 and had served previously on the Town Advisory and Finance Committee, being Chairman for two years.

Though Mr. Miller's business responsibilities as Vice President of the Bigelow and Dowse Company of Boston were heavy, his strong interest in the progress of his home town led him to accept public offices of high trust. To these offices he brought an unusually keen, incisive mind, an uncommon breadth of business experience, a strong desire that decisions be made on the basis of justice to all concerned, and an outstanding faithfulness to public duty.

Mr. Miller's contribution to the progress of the public schools in Plymouth was such that thousands of boys and girls and young people of this town stand in debt to him. His passing brings a serious loss to our community.

## REPORT OF THE SCHOOL COMMITTEE

---

To the Citizens of the Town of Plymouth:

The recent passing of J. Frankland Miller who had served with marked ability and fidelity on the School Committee for the past decade was keenly felt not only as a loss to the community as a whole but as a personal loss to the members of the committee. The language of the foregoing testimonial is quite inadequate to express our appreciation of his services to the town. His genuine helpfulness as a fellow committee member will long be a cherished memory.

The receipts and reimbursements on account of the public schools in 1944 amounted to \$30,808. The School Department is turning back \$2,474 as balance to the Excess and Deficiency Fund. The net cost of schools for 1944 amounted to \$240,824, which was 3.2% higher than the preceding year.

The budget for 1945 calls for an increase of \$1,400 in the general appropriation and an increase of \$12,400 in the salary budget, exclusive of any cost-of-living increments that may be granted. The added amount asked for under the general appropriation is due to increases in the costs of transportation, fuel, and boiler repairs. The amount requested for salaries is greater for 1945 largely because of the annual increments granted to persons not yet at the maximum and to the addition of teachers at the Junior High School. As shown in the following report of the superintendent of schools, educational costs in Plymouth are not higher than the average costs in the towns that are nearest the size of Plymouth and maintain the same type of school organization, namely, six elementary grades, three junior high grades, and three senior high grades.

On appeal of the Plympton school authorities it was decided to admit to our Junior High School as tuition

pupils for the school year 1944-45 the Plympton children in grades seven and eight. For some years past Plympton has been sending its high school pupils here. The inclusion of the seventh and eighth grade pupils in the Plymouth Junior High School will tend to bring their preparation into harmony with our ninth grade requirements. This new departure has meant the employment of an additional teacher but all additional costs involved are amply covered by added tuition receipts.

During 1944 we have continued our endeavor to make needed repairs on buildings and some improvements in grounds. Four of the buildings sustained minor damage from the hurricane. This was almost entirely confined to the removal of shingles from various roofs. We were very fortunate that all hurricane damage was repaired within a total cash outlay of less than \$200.

The most important improvements made during 1944 were the hard surfacing of the Mount Pleasant School playground and the insulation of the attic floors in the Junior High and Mount Pleasant buildings. We hope soon to include the Hedge School in this insulation program. Insulation of these attic floors will undoubtedly prove to be a good long-term investment through the saving of fuel. Second-floor classrooms will be more comfortable both in very cold and very hot weather.

In view of the fact that the school enrollments in North Plymouth have shown little indication of increasing and the further fact that extensive and costly changes would be necessary to recondition the Knapp building for school purposes, it has seemed wise to turn this building over to the selectmen for such disposition as the town may see fit to make.

Two land areas very useful for school purposes and lying adjacent to school playgrounds are being offered to the town at prices that seem very reasonable. A lot of nearly an acre adjoining the Hedge School grounds in the rear of the building and containing all of the fill

necessary to grade the Pederzani property acquired last year is being offered to the town for \$700. Another lot of two-thirds of an acre adjacent to the High School grounds and formerly a part of the Pope property, is being offered the town by David A. Cappannari for \$900. This area represents about two-thirds of the lot that the School Committee has asked the town to purchase at several annual town meetings during the past fifteen years. However, the price at which this property could formerly be purchased by the town was at a substantially higher rate per acre than the present offer. These lots would be very useful additions to school property in that they would provide much needed extensions in the playground areas. We are hopeful that the town will see fit to purchase these properties and thus enable these schools to improve the opportunities for physical exercise and recreation.

The heating plant at the Mount Pleasant School is about forty years old and has reached a state of obsolescence where the making of further repairs is false economy. In the opinion of the committee, to patch up the present plant and try to make it do for a longer period would not only be a waste of money but would subject the school to probable interruptions. The committee, therefore, recommends the installation of a new boiler with vacuum system. This would not only provide a necessary replacement but would definitely improve the efficiency of the heating system. The committee feels itself responsible not only to keep our school property in good repair but to make needed improvements from year to year.

Respectfully submitted,

E. HAROLD DONOVAN, Chairman  
FANNIE T. ROWELL, Secretary  
DAVID A. CAPPANNARI  
WILLIAM E. CURTIN  
WILLIAM H. ARMSTRONG

Plymouth School Committee

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Committee:

The year 1944 has not been one of striking progress. Nevertheless earnest efforts have been made to maintain the standards of our schools in the face of the many difficulties inherent in a world war situation and to make such adjustments as existing circumstances require. I am glad to submit below a concise report which together with those of the school principals, supervisors, and health authorities will suggest some of the changes made, some of the results secured, and some of the needs of our schools that have not as yet been fully met.

### CHANGES IN SCHOOL STAFF

As the war lengthens, the problem of securing adequate replacements for those teachers who leave the system becomes more and more critical. Relatively small numbers are entering our teacher-training institutions. The competition among communities for efficient teachers is becoming very keen. Substantially higher salaries are being paid both to experienced and inexperienced teachers. A much larger proportion than formerly of the good teachers available are either teaching in their home communities or in towns nearby where commutation is possible. We are finding it increasingly difficult to compete for teaching talent on anything like equal terms with communities of our size in eastern Massachusetts.

Up to this point in the war period, however, we have been able to recruit efficient teachers from Plymouth or nearby towns. A large proportion of the persons formerly serving as occasional substitutes on a per-diem basis are now teaching continuously as war substitutes. Among these are Mrs. Olga Anderson, Mrs. Helen Bag-nall, Mrs. Mary Foley, Mrs. Esther Maloni, Mrs. Clementine O'Neil, Mrs. Bertha Perkins, Mrs. Mary Perkins, Mrs. Jean Patenaude, Mrs. Sara B. Sharkey, and Mrs. Gladys Simmons. Several others recently employed are resi-

dents of Plymouth or were former teachers in Plymouth. We cannot be confident that we shall be able to fill many additional vacancies by drawing upon local talent. As salaries of competent, experienced teachers in eastern Massachusetts towns either equal or outmatch ours, it may become necessary for us to turn to other localities or states where the salary schedules are less adequate.

By the sudden death of Miss Florence B. Corey, teacher of grade four at the Hedge School and a teacher in Plymouth for twenty-five years, we lost a faithful and competent worker. Miss Madeline Johnson from Attleboro, a teacher of experience, was appointed to fill this position.

Three teachers of marked ability were lost to school systems in the Boston area where salary schedules are higher and opportunities for continued study are near at hand. Miss Lemira Smith, who had taught mathematics in the Junior High School for six years, went to Brookline. Her successor here was Miss Beatrice Arthur of this town and formerly head of the commercial department in Portsmouth, N. H., High School.

Mr. Reginald Steeves who for two years had been substitute for Lt. Com. John W. Packard as head of the science department in the High School went to Wellesley as head of the science department there. Mr. Steeves' successor in Plymouth was Mr. Claiborn H. Young of Wilton, N. H. and formerly instructor at Wentworth Institute.

Miss Edna Denault, who for two years had taught third and fourth grade at Oak Street, went to a grade position in Newton. Her successor was Miss Florence Giberti of Middleboro who had been principal of the Halifax Elementary School.

Mr. Richard Smiley returned from the Pacific coast to teach biology as a substitute for David Kingman now on leave and to succeed Mr. J. Clifford Geer who was made principal of Marshfield High School.

Because of a substantially larger enrollment of Plymouth pupils in the Junior High School in the fall of 1944 and the forming of a new group of slow-learning children, additions to the teaching staff were made. These new teachers are Mr. Lawrence Bongiovanni of this town, a graduate of Boston University with master's degree, Mrs. Doris G. Smith now of this town and formerly teacher in West Bridgewater, and Mrs. Mary Foley of this town on part-time service. Mrs. Foley was formerly teacher in the Plymouth High School.

Due to the inclusion of the seventh and eighth grade pupils from Plympton, one new teacher was added, this being Mrs. Jean W. Patenaude of this town and formerly teacher of English in the Plymouth Junior High School.

Mr. Joffrey Nunez was transferred from a military-substitute position in seventh and eighth grade science to a regular position in ninth grade science. Miss Bella Madow, valedictorian of her class in Salem Teachers College, was appointed to the position vacated by Mr. Nunez.

## IN AID OF THE WAR EFFORT

### **Pre-Induction Courses**

As time goes on, our work in the pre-induction courses for high school students has become more clearly outlined and the goals more definitely established. Some improvement is made in our equipment from time to time. Through the good offices of Lt. Com. John W. Packard we have secured a used Link trainer for use of the students in the elementary aeronautics course.

### **War Bonds and the National War Fund**

Pupil purchase of war bonds and stamps through the schools in 1944 amounted to \$24,122.63—an increase of more than fifty percent over the preceding year. Teachers and other school employees invested \$11,586.26 in bonds and stamps—nearly twenty-five per cent more than in 1943. Total purchases by pupils through the

schools since Pearl Harbor amount to \$72,340.94 and by school employees in the same manner to \$23,724.89. The combined sales through the schools to pupils and other employees to date is but a little short of \$100,000.

The School Department was asked to head the National War Fund Drive of 1944 for all town employees. Ninety-seven members of the school staff and other school employees contributed a total of \$274 to this purpose.

### **Junior Red Cross**

Under the general direction of Miss Mary Cingolani of the Junior High School faculty assisted by at least one teacher sponsor in each school, the Junior Red Cross has been functioning effectively to meet community, national, and international needs. In carrying forward the program for 1944, generous assistance was given by the following school departments: art, practical arts, woodworking, and physical education.

The accomplishments of the Plymouth Junior Red Cross during the past year may be summarized briefly as follows: (1) One hundred kit bags for members of the armed forces were filled by girls. (2) Twenty-one girls knitted garments for the armed forces. (3) Sixteen girls successfully took the course in home nursing. (4) A large number of members attended the life-saving classes held at Stephens Field and Nelson Street during the summer vacation. (5) Over 11,000 surgical dressings were made by high school girls under the direction of Mrs. Harrison Chamberlain. (6) Books were collected for the library corner at the servicemen's center. (7) A total of one hundred sixty-one articles were made by knitting, sewing, and woodworking groups and sent to the distribution center in New York. (8) One thousand nine hundred seventeen articles were made by the art classes in all schools and given to the camp and hospital council, which in turn distributed these articles to nearby station hospitals. (9) During the enrollment period, the total dues collected

amounted to \$358.75. Further receipts of \$42 were obtained from a sale of articles including stuffed dolls and handbags made by the children.

### **Salvage Collection**

The pupils of the Junior and Senior High Schools have had an important part in the local salvage collections. Instructions to householders as to time of collection and the proper method of packaging have been regularly distributed throughout the town. The senior high pupils have covered the southern portion of the town and the junior high pupils the northern portion delivering a copy of instructions at each door. The local salvage committee has evidenced its appreciation of this help by allotting \$100 from the proceeds of the year's sales to the schools for some worthy school enterprise.

### **Clothing Collection**

In December a collection of used clothing for children in the war-devastated countries was made through the schools in response to an appeal from the "Save the Children Federation, Inc.". It was clear that 1945 would bring clothing needs such as the world had never known. The earnestness with which the Plymouth pupils responded to the need is evidenced by the fact that approximately one ton of used clothing was gathered and forwarded.

### **Milkweed Floss Collection**

In view of the fact that our ordinary sources of kapok had been cut off, a country wide appeal was made to school children to collect milkweed floss as a substitute. This material is necessary for life preservers, life rafts, and certain insulation in airplanes. Plymouth school children succeeded in gathering, drying, and forwarding 131 bags of pods. This amount would meet the requirements for 65 life-saving jackets.

### AMERICANIZATION CLASSES

The additional work in wartime carried by persons who remain on the home front has made it impossible for many non-citizens to attend the Americanization classes. The enrollment this year is reduced by about fifty per cent. The work, however, has gone forward with smaller class groups. Graded classes including beginning, intermediate, and advanced pupils are being held twice a week at the Cordage Auditorium and at the Cornish School. Undoubtedly the needs of the individual class member can be better met when class groups are small and faster progress can be made.

The number of persons interested in the Americanization classes has in the nature of the circumstances steadily declined during recent years. The elimination of immigration by Congress in 1921 with the exception of small numbers admitted on the quota basis, has largely limited the task of naturalization to those aliens who were already in Plymouth in 1921 and who have remained here. The federal census for 1920 reported about 4000 aliens in this community. This number had declined to 730 in 1940. The special alien registration made in 1942 as a war measure reported a few more in Plymouth than the 1940 census. A careful check of the names by the School Department made within recent months shows that the number is now substantially less due to various causes, such as death, removal from town, naturalization, and the inclusion in the registration of some persons who live in nearby towns. It is our estimate that the number of aliens in Plymouth does not now exceed 500. This marked reduction from about 4000 to about 500 during the past twenty-five year period has been due mainly to the fine work that has been accomplished by the teachers of our Americanization classes under the leadership of Mr. William I. Whitney, Director. It is our hope that this good work may be continued until all who can reasonably be expected to qualify for citizenship will do so. The financial expense of this work to Plymouth

is not large in view of the fact that a state subsidy of one-half the cost of instruction reduces the local cost. On the other hand the satisfactions brought to those aliens who are desirous of American citizenship are large indeed.

### ACHIEVEMENT OF ELEMENTARY PUPILS

Although today's elementary schools look upon their task as more inclusive than that of providing basic training in three R's, we nevertheless hold to the belief that it is of fundamental importance for children to acquire, by hard work if necessary, those elemental skills and the knowledge required for further growth. Those elementary schools that are so much concerned with giving children free reign for the development of individual initiative that they neglect to condition children for an environment that will make many stern demands upon them are doing an obvious injustice to children. We, therefore, continue to hold that a grounding in the fundamentals is an objective of major concern in the elementary grades.

The standardized tests given annually in April or May indicate whether the schools are successful in helping children to lay these foundations. This year the Metropolitan tests were given in May to the pupils in grade one and the Stanford tests were given in grades two to six. The results showed grade one to be above test standard in both reading and numbers. Grade two was at test standard in both these subjects. Grade three was two months below standard in reading and three months above in arithmetic. The average standing of grade four in reading, language, arithmetic, and spelling, was at or above test standard, and the average for grade five in these same subjects was at the standard. The results for grade six, the final year of the elementary school, were especially gratifying, the pupils being at grade in reading, a full year above grade in language and arithmetic, and seven months above in spelling. Supplementary standardized tests in the social studies and elementary

science were given for the first time this year in the middle grades. In the social studies grade five was three months below standard and grades four and six were at standard. In science all three grades were at standard or above.

### VOCATIONAL EDUCATION

In normal times one can count on there being in every high school a substantial number of pupils who are not gripped by the academic courses. They go through the paces of getting a high school education but do not succeed because they lack interest in their work. Many of these pupils do find an appeal in vocational courses. In these courses it is customary to devote fifty per cent of the time to developing vocational skills and fifty per cent to academic work that is directly related to the vocational training.

Another group of pupils should be considered in this connection, namely, those who are able to do the work of the academic courses successfully but because of family circumstances cannot spend the time or money required to graduate from a four-year high school and obtain thereafter the required vocational training in specialized schools. In the years directly ahead when so many young people will be returning from the armed services to take places in commerce and industry, our high school graduates who cannot go to some higher school to acquire some vocational ability needed in our peacetime economy will be at a much greater disadvantage than they are now.

Considerable numbers of young people returning from the armed forces who are not prepared for college work will doubtless turn to vocational schools in order to improve their peacetime skills. We owe it to this group to provide these opportunities in so far as we are able.

In addition to the several groups suggested above who need vocational training there are doubtless some adult

workers now in the civilian ranks who would be glad to have evening instruction as soon as the war-time demand for labor lessens.

The desirability of meeting the training needs of the several types of persons mentioned above seems apparent. To do so in Plymouth is not immediately possible. We can, however, see that our plans are in readiness so as to take early advantage of changing circumstances that may permit the development of a vocational school here and to take advantage also of any financial assistance that may be offered by the federal or state government for the promotion of vocational education.

#### GUIDANCE AND PLACEMENT SERVICE FOR PUPILS OF HIGH SCHOOL AGE

In every school system there is a manifest need for persons who can give ample time to the study of each pupil including his general mental ability, his specialized abilities or talents if any, his personal or social problems if any. Such persons should have special training in the field of educational and vocational and personal guidance so that they are in a position to give to pupils sane advice as to courses of instruction they may wisely take and as to vocations for which they may wisely prepare.

As result of a state-wide study of Massachusetts youth in pre-war years the State Department of Education is recommending that high school guidance directors should go one step further than they have customarily, namely, to help boys and girls on graduation or leaving school to make contacts with positions which they are qualified to fill and to keep follow-up records of employment thus rendering a continuing employment service.

While much worthwhile guidance service is now being given, in our high schools by principals and teachers, guidance is rapidly becoming specialized. The work of

giving expert direction to our junior and senior high school pupils is worthy of much more time than teachers now carrying a teaching schedule can give. One teacher in the junior and senior high schools who is both interested in this work and adapted to it might well be encouraged to take further training in the guidance field and thereafter be released from a portion or all of the class teaching schedule. The statutes now provide the same state reimbursement for such persons as for regular classroom teachers.

### PLYMOUTH SCHOOL COSTS

While the major responsibility of the School Department is to provide Plymouth children and youth with adequate educational opportunities, we are concerned with another important responsibility, namely, that of furnishing such opportunities at a cost that is reasonable and well within the ability of the town. There seems to be no generally accepted formula for arriving at the amount of reasonable school costs for any community. We have to rely upon a comparison of Plymouth school costs with those of Massachusetts towns nearest the size of Plymouth and having the same general type of school organization. Such a comparison is shown in the table below. The comparable figures for the state are given also. It so happens that the twenty-four towns in the group with Plymouth are on the average a trifle larger than Plymouth in population but have lower property valuations both on the per-pupil and the per-capita basis. Plymouth's tax rate for school purposes as well as our school costs per pupil are shown to be less than the average for the entire group of twenty-five towns and less than the state average.

COMPARATIVE SCHOOL COSTS  
(From latest available tabulation of State  
School Returns, 1943)

	25 Towns* (Average)	Plymouth	State
Valuation per pupil	\$10,523.24	\$10,727.00	\$10,935.00
Valuation per capita	1,573.24	1,654.00	
Municipal tax rate	30.82	31.20	
School tax rate	11.98	10.60	10.77
Expenditure per pupil	125.15	117.17	129.83

\*Towns Included:—

1. Watertown	9. Wellesley	17. Andover
2. Belmont	10. Natick	18. Reading
3. Framingham	11. Lexington	19. Marblehead
4. Milton	12. Webster	20. Stoneham
5. West Springfield	13. PLYMOUTH	21. Swampscott

8. Norwood	16. Athol	24. Barnstable
		25. Ludlow

GOOD-WILL A FUNDAMENTAL OF CITIZENSHIP

While we are fighting to preserve our freedom and democratic government from overthrow by tyrannical powers it is necessary to endow our youth with that knowledge and those attitudes that will not only safeguard our freedom from insidious attack by forces within but will help our country on toward a more perfect realization of those satisfactions that life in a democratic society should bring to all.

One of the chief threats to our safety from within and a major barrier to our attainment of desirable social relationships is the existence of prejudices. These prejudices are to be found among groups of differing racial stock, of differing religions, and of differing social and economic status. Such prejudices are thought to be so inimical to our well being that Governor Saltonstall appointed the state Committee on Racial and Religious Understanding with the State Commissioner of Education,

Dr. Julius E. Warren, as its chairman. This committee is directing the attention of school administrators and teachers throughout Massachusetts to the gravity of the problem and is urging that each community consider its local situation and take such steps as may be indicated to improve racial understanding and respect for religious differences.

The attention of Plymouth teachers is being directed to the need for helping our pupils cultivate the open mind and scientific attitudes. Mrs. Miriam Raymond of the Senior High School has recently made a special study of this matter at the Wellesley College summer school and is demonstrating to groups of our teachers on the various grade levels the most common ways in which prejudices arise. It is aimed to direct the attention of our teachers to the numerous opportunities in the school experiences of our pupils for conditioning their attitudes in favor of the open mind and of the truth in all situations so that fair play and justice to all concerned will become an actuating principle of everyday living. This can only be brought about through constant watchfulness and continuous effort on the part of teachers and parents. Such efforts, however, if earnestly made and in a cooperative spirit give promise of a citizenry that will be freer from prejudices and more successful in living together happily and usefully.

In closing this report may I express my deep appreciation of the valued guidance of the School Committee as well as of the earnest and able efforts of the staff in carrying forward the work of public education in Plymouth.

Respectfully yours,

BURR F. JONES,

Superintendent of Schools.

## REPORT OF SENIOR HIGH SCHOOL

---

It is not too generally understood that the first responsibility of a public school system is to the state; not to the child, the home, or the local community, but to the state. That this responsibility can best be met by focusing the major attention on the child is due to the nature of the governmental structure of the state in which we live. Were we living in Germany or Italy or any of the many totalitarian states, the exact opposite of this would be true. There the child is bent to whatever ends the state decrees; here the state serves the child, its citizen to-be. All of which merely emphasizes the school's first responsibility to the state.

What has this school done to discharge its responsibility to the state?

At the close of the school year last June it granted diplomas to 135 boys and girls. These boys and girls have been taught the structure and functioning of our government on local, state, and national levels so that they may be efficient in the exercise of their rights and duties as citizens. They have been indoctrinated in the principles and practices of democracy in the hope that justice and fair play may become instinctive with them, and the Bill of Rights an integral part of their mental make-up. They have been given opportunities to learn within the different fields of human activity as much of the accumulated knowledge of the race as they can at their age assimilate, so that their horizons may be extended and their minds developed. They have been provided with facilities to explore the areas within which they may later earn their living—and more than this, the opportunity to lay the foundations on which their later occupational training, whether at the professional level or lower, will be based. They have been led, taught, encouraged, inspired to develop all their talents both for their own sakes and for their country.

That, in a general way, covers the work of the school.

The implications of the above carry so deep and so far that a report in detail would take volumes; a brief report should confine itself to but one or two pertinent points.

The traditional tools of education at secondary school level are history, languages, mathematics, and the natural sciences—or some modification or development of these. Not everyone, however, handles these traditional tools well or can gain a reasonable mastery of their use. Therefore constant watch is kept for material which may give promise of becoming a new tool (the pre-induction courses in “Machines,” “Automotive Mechanics,” “Electricity,” “Aeronautics” are examples), or of a new approach to an old subject, so that in modern streamlined form its efficiency is enhanced. Teachers must constantly introduce new material, try it out in classroom conditions with pupil groups of different age and mental levels, evaluate it in terms of personal development and public usefulness. As world, national, or local conditions change, the content or emphasis of courses must change, too, in order that progress may not be impeded. As a case in point the problems of the peace to come are giving added importance to such subjects as history, geography, and civics. The school is moving to meet these changes; and the program of studies some years hence will as a consequence be markedly different from that of a few years back. In fact, the changes already made are an earnest of the changes to come.

From the parents' and the pupils' point of view, pupil guidance is of even greater importance than the program of studies since through guidance an effort is made to determine what subjects will contribute most to the mental and moral development of the pupil, and at the same time serve as the foundation for those skills through which he will later earn his way in the world. That we have had an effective guidance system for some years

and have been able to direct our pupils with intelligence, both educationally and occupationally, has been a matter of satisfaction and pride to us. But the limitations imposed upon us by a meager testing program have frequently caused us misgivings and have always in difficult cases forced us to adopt time-consuming procedures before we felt we could act. Now however, with the Boston University Testing Service to supply this former lack we should be able to do even more for the children in our schools.

No one can direct the activities of a high school in war time and fail to be impressed by the innate courage and courtesy of children. Careless they may be in many ways, and trying—even exasperating—in others; but they face a bleak and forbidding future with less complaint than do we, their elders, and they recognize reality clearly enough so that we know their steadfastness is not founded on self-delusion. Almost daily they see on our Roll of Honor the nine hundred or more names of the boys and girls who were here before them, and who now serve their country; all too often comes news of another boy wounded or missing in action; and with crushing finality death is now and then announced. In such an atmosphere no more eloquent argument for democracy than is this Roll of Honor can exist; no greater proof of sound citizenship. The school is discharging its debt to the state, the town, and the child.

EDGAR J. MONGAN,

Principal

## REPORT OF JUNIOR HIGH SCHOOL

---

The enrollment in the Plymouth Junior High School on December 23, 1944 by grades, sex, and town of residence was:

	Plymouth		Plympton		Carver		Total		
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	
Grade 9	87	64	2	4	5	8	94	76	170
Grade 8	90	62	6	7	0	0	96	69	165
Grade 7	99	97	0	11	0	0	99	108	207
JPA	25	14					25	14	39
Total	301	237	8	22	5	8	314	267	581

A year ago the total enrollment was 529. The increase in numbers this year is due to a larger seventh grade, an additional group of junior practical arts pupils, and the admission for the first time of the seventh and eighth grade pupils from Plympton.

A year ago the student body was divided into sixteen classes; this year there are eighteen. It is necessary to divide the special class group into two small divisions because of the nature of the work done with the members individually and because the law requires it. The three additional divisions made it necessary to return the conference room to its former use as a class room and to use the library as a class room the major part of the time. This school should have one more classroom available.

There were six changes in the teaching force.

The three additional classes this year required three additional teachers, and three replacements were made. As the year advanced it became necessary to appoint a part-time teacher to relieve those in charge of the junior practical arts division from teaching certain groups in other divisions. We have been most fortunate to secure capable teachers to fill these positions. Our difficulty lies

in the shortage of substitutes trained to do specialized work.

A noteworthy improvement has been in the cafeteria. Advantage has been taken in the allotment of government funds for the enrichment of children's school lunches making it now possible for a child to purchase a generous, well-balanced meal for fifteen cents and a glass of milk for two cents. This special meal consists of two ounces of meat or other protein, potato, three-quarters cup of vegetables or fruit, and buttered bread. In this school alone nearly two hundred such dinners are consumed daily as compared with fifty or sixty formerly sold. Continued on the daily menu are a hot soup, a fresh salad, a choice of three kinds of sandwiches, a home-made dessert, ice cream, fruit juices, and fresh fruits in season. An earnest effort is being made to see that each child secures nourishing satisfying food at the time of day when it is needed most.

Advances have been made again this year in the fields of visual education and science. The graduating class of 1944 made the initial payment on a DeVry projector as a class gift, and the returns from school dances are financing a library of strip films which augment the work in many departments—social studies, shop mathematics, English, and Latin.

A Science Club, affiliated with the Science Clubs of America, has been formed for ninth grade pupils as an extra-curricular activity and is open, not only to students of science but to those whose curriculum does not include this subject.

The usual wartime activities are being carried on. That the children are aware of the needs of others is shown in their generous response to calls for contributions. Several bags of clothing were sent to the Save-The-Children Federation, \$206.81 was contributed to the Junior Red Cross, and 6166 Christmas seals purchased. The entire school co-operated with the Plymouth Garden Club in

sending 20 bushel baskets filled with gifts and a sum of money for victrola records to the service men in the hospital at Camp Edwards. One class took charge of an entire ward. The foods classes sent cookies and sweets.

In December the Gilbert and Sullivan operetta, "The Pirates of Penzance," was presented. Although primarily a feature of the music department, the activities involved in the operetta are broad in scope, reaching into many other departments, into every classroom, and into many homes. It was a truly co-operative project, exceptionally well done.

The school is indebted to parents and friends who have contributed their services in many ways—the patronesses at the dances, the group of women who prepared the Italian spaghetti supper for the graduating class in June, the speakers who have addressed the school assemblies and the patriotic organizations who presented awards to students at the graduation exercises. Within the school is a group of teachers working well together, interested in the progress and problems of children in their care and in the school as an organization for helping children to realize their possibilities and responsibilities.

In anticipating the requirements of the next school year it seems advisable to consider:

1. A reduction of departmentalization in the seventh grade.
2. The expansion of the guidance program.
3. The allotment of more time to science in grades seven and eight.

MARY M. DOLAN,  
Principal.

## REPORT OF ELEMENTARY SCHOOLS

---

One of the concerns of the elementary schools during the past year has been the development of a program in the social studies that will foster better social understandings, attitudes, and conduct. With this in mind, curriculum guides for geography and history are being completed. The most significant change in the program is that geography will receive a greater emphasis. It is believed that, by providing a more adequate geographic training, the elementary school pupils will acquire a better knowledge of the world of today and a more satisfactory background for the study of history.

Health education has been strengthened by the introduction of improved text books in this field.

This year's war activities include purchase of War Savings Stamps and Bonds, donations to the Junior Red Cross and South Hanson Summer Camp, a collection of milk weed floss to be used in the making of life jackets, and a collection of clothing for children of countries devastated by war.

Respectfully submitted,

ELOUISE E. CASHIN,  
HELEN S. MANCHESTER,  
FRANKLYN O. WHITE,  
WILLIAM I. WHITNEY,

Principals.

## REPORTS OF SPECIAL DEPARTMENTS

---

### Music—Beatrice Hunt, Supervisor

The work of this section of the Music Department from December through June, 1944, was in the capable hands of Miss Marion K. LaFountain, who substituted for the school year 1943-1944 while the supervisor was on leave of absence. Supervision of the work done in grades 1-6 and classroom work in Junior High School were carried on as usual. Several spring concerts by the various glee clubs, and numerous appearances by the Senior High Girls' Octet testified to the quality of the work among these groups.

Since the opening of school this past September, all glee club groups have again become active and have contributed often to the musical life of their respective schools and the community.

The Junior High School presented Gilbert and Sullivan's "Pirates of Penzance" on December 6 and 7 to capacity audiences both nights. The social and cultural benefits derived by all those who participated in this production, in addition to the musical inspiration received, made of the operetta an undertaking well worth the time and effort spent on it. It is an experience that will bear fruit in the years ahead.

The High School Girls' Glee Club and Ensemble have contributed their talents to several assemblies, notable among which was the very moving Christmas assembly presented to both Junior and Senior High Schools, under the direction of Mrs. Raymond.

The Plymouth Rotary Club was entertained by a group of boys from Junior High School and the Girls' Ensemble at their regular Christmas meeting on December 18. Not only did these students get much pleasure from singing

for the Rotarians, but they also enjoyed tremendously the experience of singing with the men.

The Girls' Ensemble travelled to Camp Edwards on December 22, to take Christmas cheer to our wounded men in the various wards at the camp hospital. It was a most valuable experience for the girls, as well as an enjoyable one for the boys who heard the Ensemble.

Members of the High School Glee Club and Ensemble took part in the annual Christmas party at the Town Infirmary on December 24.

It is most gratifying to watch the progress of our young boys and girls from their early musical experiences in the grades up through Junior and Senior High music groups—to see them gain in general musical knowledge and in the ability to make of their music a real social instrument for self-improvement and for service to others. It is to be hoped that an enlargement of the music staff will some day make it possible to offer our students in Junior and Senior High a more enriched music program than is now possible, a program more in keeping with the general educational standards of both schools.

#### **Instrumental Music—Mrs. Amelia Vincent, Supervisor**

The Senior High School band took part in five school occasions and in three public occasions. A number of its members assisted the Coast Guard and the Legion Band from time to time during the year. The Junior High School band functioned at four school occasions and at one meeting of the Woman's Club.

The combined Junior-Senior High School orchestra played at numerous school assemblies and at several public occasions including the annual education meeting of the Woman's Club. The Junior orchestra also made its contribution during the year.

Elementary school ensembles functioned at the Hedge, Cornish, Mount Pleasant, and Manomet Schools.

A demonstration program of the Junior-Senior High groups was given on March 22 for the benefit of the public and a similar demonstration was presented by the elementary schools on May 17.

**Drawing—Supervisors:**

Mrs. Margaret Brown and Hazel Bates.

Special emphasis was placed on good lettering, figure drawing, and use of color to give pupils the background needed to produce such projects as two stage sets for the Junior High School operetta, "The Pirates of Penzance."

High School graduation decorations for June 1944 illustrated the theme "Science in War and Peace." The use of figures in two murals, on representing, "The Modern Chemist" and the other "The Alchemist" were combined with secondary murals showing the different continents and large decorative lettering of the class motto.

The latest High School achievements have been the making of ten life-sized painted figures and backgrounds for "The Nativity" scenery for the Junior and Senior High School Christmas assemblies. This stage set will be for permanent use at Christmas. Large Della Robbia Madonna plaques were painted for Christmas decorations at the hospital at Camp Edwards. Several poster contests were conducted, including Victory Garden Posters, Motion Picture Posters entitled, "Movies Part in the War Effort"; Sixth War Loan War Bond Posters, for stimulation of sales in Plymouth High School; and a Rotary Club contest for the best design for a Road Sign.

We have endeavored as far as possible to educate the pupil in art and drawing and also to make art play its part in the school and community life and the war effort.

The elementary grades show a definite gain in:

- I. Habit Formation
  - a. Working freely at all times
  - b. Working orderly
  - c. Working neatly
- II. Attitudes
  - a. Willingness to try new things
  - b. Awareness that lessons learned in the art period are useful in other lessons
  - c. Desire to improve and grow
- III. Abilities
  - a. To express ideas graphically so others can understand
  - b. To express ideas 3-dimensionally
  - c. To make simple, rhythmic borders

The work in the intermediate grades has been correlated with other subjects and much fine work done at the request of the Junior Red Cross.

The Junior High School program has been based on the needs of the Junior Red Cross, for whom the students have made: posters, place-mats, place-cards, napkins, menu-covers, nut-cups, favors, and masks. I believe this correlation is a splendid means of motivating the work. It gives much opportunity to teach how to work in groups harmoniously and speedily while giving the students a sense of being helpful to others.

### **Physical Education**

#### **A. Junior-Senior High School Girls — Mrs. Beatrice Garvin, Supervisor**

Achievement and interest have progressed very rapidly in the girls' gym since the schedule was revised to include two periods of physical education a week. This is especially evident in the Senior High school work this year. The ninth grade is also reporting twice a week, and will enter the High School well trained in skills and fundamentals.

Participation in a demonstration at Memorial Hall in May helped to interest the parents and friends of the girls in their gymnastic activities. All numbers were taken directly from the lesson plans, and volunteers from the seven class groups demonstrated their skills in marching, calisthenics, apparatus, tumbling, dancing, and various games.

This year a number of the girls who were formerly excused from the program are reporting with their classes. They assist in scoring and participate in activities when it seems wise that they should do so.

Last spring Miss Parren introduced archery as a new sport, which with the usual Badminton was a very satisfactory solution to the problem of having small groups find new interests in after-school sports. Both volley-ball in class and Badminton after school are used as co-ed activities, joining the interests of the boys' and girls' departments.

The numbers reporting for sports is larger than in the past few years, and this is especially true in the Junior High group. The ninth grade will have a very interested hockey and basketball unit joining the High School squads next year, and the eighth grade girls are learning to play basketball.

B. Junior-Senior High School Boys—Louis Rudolph, Supervisor.

The aim of the physical education program is to condition the boys to meet the wartime service demands of strength, endurance, stamina, co-ordination, and agility.

Through the physical education classes, the intra-mural program, and inter-scholastic athletics, the boys develop their physical capacities to meet the current day demands.

Physical education classes include mass games, calisthenics, touch football, heavy apparatus work, wrestling,

boxing, rope climbing, softball, and track events. On the high school level emphasis has been on rugged and vigorous activities. On the junior high level the stress has been on teaching the fundamental skills and rules of the popular sports.

Three basket ball leagues were conducted last winter, one in each of the junior high grades. A junior high baseball league was run off with much enthusiasm in the spring.

Co-ed volley ball and Badminton games have proved very successful.

Along with the Girls Physical Education Department the boys put on a gym demonstration at Memorial Hall last May. The purpose was to acquaint the parents with the varied activities afforded in the physical education or gym classes. The boys program consisted of tumbling, boxing, wrestling, a commando run, spring board jumping, co-ed volley ball, and sports tableaux.

Interest in football hit a new high when half the boys in the sophomore class reported for practice this fall. Sixty boys composed the football squad at the start of the season as compared with thirty-five last year.

Some interest in track has been shown and a small group represented the school at the Weymouth Inter-scholastics.

The basket ball team climaxed a successful season by winning the Brockton Y.M.C.A. Tournament.

C. Elementary Program—Carolyn Parren, Supervisor.

This year added emphasis to corrective postural activities is being given. I am now in a better position to conduct such a program because of added knowledge of the children, of the nurse's and doctors' reports and methods, and because of the awareness by children and teachers of what I am trying to do, mainly: help boys and girls

to have straight, healthy bodies well able to play and work efficiently.

Formal exercises are given to the classes. When teachers or I notice children who need special attention because of postural defects, I try to give these pupils added attention. Such attention may be merely an explanation as to why a special exercise should be practiced and may include reasons why boys and girls find themselves relaxing into poor positions. Other pupils need and receive special supervision when doing postural work.

I am continuing the group games. The folk dances that are more easily executed with a minimum of practice are sources of enjoyment for the pupils.

In the first three grades wherever indoor space allows, I am able to conduct rhythmic activities placing emphasis on coordinate abilities such as skipping, sliding, galloping, walking and running, to music.

In all play activity the teachers and I stress group cooperation as a requisite for healthful enjoyment, as well as the importance of coordinated skill in execution.

May I add that, contrary to some beliefs, I find most pupils wish to stand and walk well when they realize how much it means to them now and will mean in the future. When given the key to good posture they seem to enjoy the program. However, the cooperation of parents and teachers is necessary to keep them thinking along these lines. Pupils are growing and for that reason there is special need of posture supervision and help.

#### **Pottery Vocational School—Katharine Alden, Instructor**

The Plymouth Pottery School has continued for its eighth year with the usual enrollments. The evening classes are proving to be the most popular. The Pottery Guild has become almost inactive due to war time occupations but most of the members are eagerly anticipating the day they can return to their former activities here.

Handicraft Classes—Mrs. Louise Chrimes, Instructor.

The Plymouth Handicraft Group is now in its second term and has an enrollment of thirty. This group meets at the Sparrow House and has shown much enthusiasm under the leadership of Mrs. Louise Chrimes of Boston. Additional Evening Classes have been organized for business women under the tutelage of two of the class members.

### **Summer School**

The summer school this year served a total of 105 pupils for a period of six weeks beginning July 3 and ending August 11. The grades included were three to eight, the pupils being given an opportunity to improve their command of the fundamental subjects. Standardized tests were given at the close of the session and the results showed a substantial advancement on the part of many of the pupils. Of 33 pupils in grades three, four, and five, who were given the test in reading, 10 showed a gain of more than one year since the preceding May, 15 of more than one-half year. Comparable gains were made in arithmetic. The percentage of attendance was 91.4. On the whole the evidence is that the summer school is a wise investment both from the standpoint of the pupils' welfare and from the standpoint of school economy. The teachers who deserve much credit for the fine work done were: Mrs. Jean Patenaude, grades six and eight; M. Louise Peterson, grade seven; and Helen F. Perrier, grades three, four, and five.

## REPORT OF SCHOOL HEALTH DEPARTMENT

---

Considering the pressure of the war we feel that the health of the pupils for the most part has been very good. As in previous years the most prevalent of the contagious diseases has been scarlet fever. For the current year, January to January, the number is above the average for Plymouth. The approximate number for the past year has been eighty six. We personally feel that this disease is being spread by carriers. We have no definite proof of this except that it appears to begin within ten days to two weeks after the school year opens in September and cases appear sporadically throughout the school year with practically no cases occurring in the summer months. No test has yet been devised to pick up possible carriers, but as reported before, enlarged or diseased tonsils may play an important part in the spread of this disease. Other diseases have been fairly well controlled although during the early months of the year there appeared a mild outbreak of chicken pox and measles with approximately forty-two cases of the former and forty-seven of the latter during that period.

We are now using the new Massachusetts Vision Test which apparently is a definite improvement over previous methods. One eye doctor reported that in his estimation more cases of farsightedness and muscle imbalance are being detected than ever before.

We still have the problem of transporting the children to and from clinics and it is hoped that some arrangement may be made to use the Red Cross Motor Corps for this purpose because in many clinics it is essential that a parent accompany the child. If we have a group of four to six children to be examined our own car is far too small to accommodate both children and parents. Some pupils thus must wait a more opportune time for needed clinical service.

The number of girls in the Junior and Senior High School seeking excuses from physical education has been higher than average. This tendency should be checked. Some of the pupils excused have been found repeatedly at dances. Some walk to and from school without difficulty. Some girls excused from gym have been seen to exercise violently as cheer leaders. All girls should dress for gym. Those for whom the more exacting exercises are too rigorous should be given light exercises. The types which could be used for these are almost unlimited. Psychologically it would be better to require that they present themselves for physical education work. It has been found in other localities where this is done that many of the pupils eventually take part in gymnastic work voluntarily. It has been suggested that no one be excused for the next year or two in order that the plan be given a trial. The time element is important in this work for the period is forty-four minutes. Actually, however, there is only twenty four minutes spent in exercise. The remainder of the time is spent in undressing, showers, and dressing. If possible more time should be given to allow for these extras.

Diphtheria immunization and Dick testing for scarlet fever were again carried out. As in the previous year approximately 47% of those tested were Dick positive. In general those who were negative in earlier tests were still negative and those who were positive in earlier tests were still positive except in some cases where a streptococcic infection or scarlet fever had intervened which resulted in a negative test. In one case, however, a positive test was obtained in a pupil who had had scarlet fever two weeks previously.

We have much appreciated the splendid work and co-operation of Miss Parren who, aside from her regular duties has labored unceasingly with posture problems in the lower grades. Beginning posture work in these lower grades is one of the best ways of laying the foundation

for a future posture consciousness in the adolescent period.

In October the state speech therapist Miss Beatrice Smith visited Plymouth with a view to starting work on children with speech impediments. We have had this idea in mind for some years and at last our efforts have been rewarded. The work is being carried on by the Massachusetts Department of Public Health Service for Crippled Children. The clinic is held once a month at Brockton where Miss Smith will do the corrective work.

Audiometer tests for defective hearing have been done especially for new pupils, and a check-up made on defectives, those who have had scarlet fever recently, and some of the elementary pupils.

We still feel as in years past that the success of our program depends upon cooperation between the schools and the homes. It is hoped that through reading this report, parents will become more conscious of their part in this all important program of health in our schools.

#### STATISTICS

Physical examinations .....	2537
Inspections by school physicians .....	427
Pupils readmitted by school physicians .....	473
Pupils readmitted by family physician .....	184
Pupils readmitted to school after having a contagious disease .....	168
Inspections by school nurse in schools .....	688
Home visits by nurse .....	310
Pupils excluded by nurse .....	161
Pupils taken to hospitals and clinics out of town ....	96
Pupils weighed and measured .....	1940
Pupils given first-aid treatment in schools .....	152

## REPORT OF ORAL HYGIENE DEPARTMENT AND DENTAL CLINIC

---

An important aim of our dental program is the prevention of the early loss of teeth—baby and permanent. We urge all children to make regular and frequent visits to the dentist.

Classes in the elementary schools in which half or more of the pupils had all dental defects corrected as of June 1944:

Hedge School		Cornish Shool		Mt. Pleasant School	
Grade 2	60%	Grade 1	77%	Grade 4	52%
Grade 2	55%	Grade 1	52%	Grade 5	56%
Grade 3	65%	Grade 2	55%	Oak Street School	
Grade 3	57%	Grade 2	50%	Grades 1, 2	76%
Grade 4	73%	Grade 5	63%	Cold Spring School	
Grade 4	57%	Grade 6	54%	Grades 1, 2	60%
Grade 5	59%	Manomet School		Grades 3, 4	57%
Grade 6	57%	Grades 1, 2	58%		
Grade 6	51%	Grades 3, 4	50%		

Parent education is given through the well-child conferences and pre-school examinations. At the well-child conference the mother is told that her child should begin going to the dentist as soon as he has twenty baby teeth. Due to the service of these conferences it is hoped that there will be a vast improvement in the mouths of those entering first grade.

Well-child conferences attended by dental hygienist.. 5  
Mothers interviewed ..... 55

Pre-school examinations, May, 1944:

Number of inspections by the dental hygienist .... 93  
Children found to be free from defects ..... 33

## ANNUAL EXAMINATIONS

The annual examinations were conducted by the school dentist. They found that a large majority of the pupils had had dental work done. This was especially noticeable in high school, probably due to improved economic conditions and the demand for sound teeth in the military services.

Pupils examined in Elementary schools and Junior High .....	1651
Pupils found to have all needed corrections made	447
Pupils holding certificate from family dentist ....	57
Pupils examined in Senior High School .....	406
Pupils found to have all needed corrections made	163

## FOLLOW-UP WORK

Oral hygiene talks given to pupils in the classroom	310
Home visits .....	2

## DENTAL WORK AT CLINICS

Pupils having teeth cleaned .....	1018
Permanent teeth filled (six-year molars) .....	125
Permanent teeth extracted (six-year molars) .....	2
Baby teeth extracted .....	80
Treatments .....	79
Pupils having all corrections made .....	48
Pupils having had part of corrections made .....	4
Amount received for cleaning of teeth .....	\$ 97.70
Amount received for filling and extractions	13.60
Amount received from sale of toothbrushes	44.90

---

Total amount received at clinic ..... \$156.20

JANE B. BRADFORD,  
Dental Hygienist.
